

Ebod Meeting Dec 11, 2024

E-board Members:

President: Kumpy Kump

1st VP: CJ Hobbs

2nd VP: Tico Sandoval

3rd VP: Danielle Mulkins

Race Referee: Louis Stevenson

Novice Representative: Damon Poor

Riders Representative: Don Williams

Secretary: Mallory Dobbs

Treasurer: Neil Heineman

BOD Members:

Mark DeGross

Craig Johnson

Chris Wilcox

1

00:00:00.000 --> 00:00:01.070

Tico Sandoval: Done.

2

00:00:02.430 --> 00:00:03.540

Tico Sandoval: It's recording.

3

00:00:04.760 --> 00:00:05.990

Kumpy's iPhone: Do we have everyone here.

4

00:00:07.500 --> 00:00:10.200

Tico Sandoval: I don't thank everyone.

5

00:00:11.940 --> 00:00:13.270

Cj: No, we don't have Neil.

6

00:00:15.040 --> 00:00:16.949

Tico Sandoval: Neil was a maybe on the invite

7

00:00:19.700 --> 00:00:21.490

Kumpy's iPhone: I think Mallory is out.

8

00:00:22.030 --> 00:00:26.730

Tico Sandoval: Mallory's out. Okay, do we have writer or novice rep.

9

00:00:29.000 --> 00:00:29.760

Damon Poor: Sure.

10

00:00:29.960 --> 00:00:30.530

Tico Sandoval: Yup

11

00:00:34.630 --> 00:00:39.410

Tico Sandoval: looks like everybody that I can think of, or who who else? Who else are we missing

12

00:00:42.490 --> 00:00:43.900

Tico Sandoval: other than Mallory?

13

00:00:49.240 --> 00:00:53.339

Kumpy's iPhone: Mallory and Neil, I guess, and let's see who else?

14

00:00:53.960 --> 00:00:57.070

Kumpy's iPhone: Alright, Danielle Damon!

15

00:00:57.780 --> 00:01:00.440

Kumpy's iPhone: Don Lewis!

16

00:01:02.970 --> 00:01:07.050

Kumpy's iPhone: Oh, chris and Craig.

17

00:01:09.950 --> 00:01:10.859

Louis Stevenson: Chris is here.

18

00:01:12.960 --> 00:01:14.580

Louis Stevenson: He's just silent.

19

00:01:15.120 --> 00:01:16.050

Tico Sandoval: Chris is on.

20

00:01:17.350 --> 00:01:19.440

Tico Sandoval: Okay, we can get yeah. Craig's missing.

21

00:01:19.680 --> 00:01:25.509

Kumpy's iPhone: Okay, we can get started in a second. I'm just trying to get my video going. I don't know why my video is not working.

22

00:01:26.770 --> 00:01:32.969

Tico Sandoval: Before we get into it. Just wanna confirm. Everybody got the invite initially,

23

00:01:34.750 --> 00:01:41.260

Tico Sandoval: did everybody. Everybody got the email because Damon said he didn't get it, so I just wanted to make sure everyone else got the initial invite.

24

00:01:41.260 --> 00:01:43.649

Damon Poor: That's correct. I did not get the initial invite.

25

00:01:44.320 --> 00:01:44.960

Tico Sandoval: Okay.

26

00:01:45.770 --> 00:01:46.290

12535928762: Good.

27

00:01:47.550 --> 00:01:48.280

Tico Sandoval: Okay.

28

00:01:49.460 --> 00:01:52.310

12535928762: So yeah, I don't know. Damon, what what's what's up with that.

29

00:01:52.310 --> 00:01:56.559

Damon Poor: I'll go through and double check it. Do you know what day it was sent that way? I can search my email for it.

30

00:01:56.750 --> 00:01:58.047

Tico Sandoval: Last week, sometime

31

00:01:58.480 --> 00:01:59.610

Damon Poor: Okay. I'll look through.

32

00:01:59.780 --> 00:02:03.800

Tico Sandoval: Someone can verify that just making sure it's not going to spam, or

33

00:02:04.280 --> 00:02:17.660

Tico Sandoval: everyone on the list is actually going to the right person on the list, but I think Chris set up that E board list, and that was, I think, really helpful to keep the the invites going to the right place.

34

00:02:18.740 --> 00:02:29.089

12535928762: It went out 6 days ago, and when the very 1st one went out I had to approve it because it kept throwing them into my junk folder, so you have to approve them, and keep them as like a person that can send you

35

00:02:29.520 --> 00:02:30.570

12535928762: messages.

36

00:02:30.980 --> 00:02:34.040

Tico Sandoval: Okay, yeah. It probably came from my work email, too.

37

00:02:35.190 --> 00:02:40.350

Kumpy's iPhone: Give me 2 min guys cause I gotta try to. I got a new phone and I'm trying to. I think I have to enable

38

00:02:40.701 --> 00:02:46.718

Kumpy's iPhone: my camera to work with my phone. It's not critical that you guys need to see me. But just give me a second.

39

00:02:46.980 --> 00:02:48.360

Damon Poor: Bring it off, and then on again.

40

00:02:49.203 --> 00:02:50.050

Louis Stevenson: It's right.

41

00:02:50.050 --> 00:02:51.250

Kumpy's iPhone: And what on and off.

42

00:02:51.250 --> 00:02:54.620

Louis Stevenson: No, don't! Don't listen to him. He's just. He's just messing with you.

43

00:02:56.170 --> 00:02:57.319

Kumpy's iPhone: Yeah. Let me work on.

44

00:03:22.810 --> 00:03:23.470

Tico Sandoval: Improvise.

45

00:03:54.920 --> 00:03:59.460

Damon Poor: Is Heidi still the chief tech lady.

46

00:04:00.400 --> 00:04:02.739

Louis Stevenson: No, no, that's

47

00:04:03.250 --> 00:04:04.000

Tico Sandoval: All.

48

00:04:04.430 --> 00:04:05.860

Louis Stevenson: Paul, Mccompsey.

49

00:04:06.170 --> 00:04:10.450

Damon Poor: Okay, I was cruising through the rule book, and it still shows Heidi as that.

50

00:04:10.450 --> 00:04:12.749

Louis Stevenson: So that you're looking at last year's so.

51

00:04:13.170 --> 00:04:16.969

Damon Poor: Damn it! Well, I mean it still says 2024. We got 15 days.

52

00:04:17.399 --> 00:04:23.859

Louis Stevenson: Yeah, but I mean it also has, you know, colt and everybody in there. So.

53

00:04:23.860 --> 00:04:25.499

Damon Poor: Oh, yeah, there you go. Okay.

54

00:04:28.470 --> 00:04:32.670

Louis Stevenson: It's our weird change over how we switch before the last round. So.

55

00:04:33.250 --> 00:04:35.310

Damon Poor: Do you know, when the new one gets posted.

56

00:04:36.580 --> 00:04:43.789

Louis Stevenson: It will be by the 1st of the year I'm waiting. I I'm pretty. I'm done right now. I've been proofreading this week.

57

00:04:44.664 --> 00:04:49.880

Louis Stevenson: Going through adding, enter document links.

58

00:04:50.120 --> 00:04:54.423

Louis Stevenson: so that when there's a reference someone can just click the reference, and it takes you to that part.

59

00:04:54.650 --> 00:04:56.680

Damon Poor: Fuck. Yeah, Bud, that's gonna help a lot.

60

00:04:57.230 --> 00:05:05.350

Louis Stevenson: Yeah, there's a few proofreading things I've been finding lots of like stuff that's like there I found today. I found a section that was duplicated.

61

00:05:05.836 --> 00:05:20.319

Louis Stevenson: Because it's like it's like it was like at the bottom of one section. And then somebody had created a whole, another like head section with its own title for that same information. So it got duplicated and didn't get deleted.

62

00:05:22.110 --> 00:05:25.160

Louis Stevenson: Things like that. So just cleaning things up.

63

00:05:26.600 --> 00:05:33.460

Louis Stevenson: But yeah, it it's it'll be ready to go here soon. But I'm waiting for Omra to vote and

64

00:05:33.540 --> 00:05:36.729

Louis Stevenson: for them to approve their stuff so I can.

65

00:05:37.680 --> 00:05:41.620

Louis Stevenson: if and if it, if they don't do it by 1st year, I'm sending it out anyway. So.

66

00:05:42.122 --> 00:05:51.799

Jason Iverson: Yeah. So the plan is, our schedule is the ballots. Voting opens the 14.th That's when the ballots are supposed to go out. They'll be open for a week.

67

00:05:51.840 --> 00:05:56.888

Jason Iverson: and my goal is to have our

68

00:05:58.020 --> 00:06:00.377

Jason Iverson: I'll probably start working on the

69

00:06:01.240 --> 00:06:11.379

Jason Iverson: on the rule book, actually, probably before that, and if anything wild happens, then I can. You know, whatever, make whatever adjustments. But that should be my my goal is like right at the beginning of the year.

70

00:06:11.730 --> 00:06:15.011

Louis Stevenson: I don't expect anything based on our chats, but I mean

71

00:06:15.738 --> 00:06:18.970

Louis Stevenson: so that's why I kind of moved ahead with everything right now. So.

72

00:06:19.160 --> 00:06:19.940

Jason Iverson: Yeah.

73

00:06:21.190 --> 00:06:28.149

Kumpy's iPhone: Okay. So I'm back, I got my video going. And so let's just get our meeting officially started. If that's cool with you guys.

74

00:06:28.150 --> 00:06:28.780

Louis Stevenson: Yep.

75

00:06:29.116 --> 00:06:33.313

Damon Poor: So cool, alright cool. So I invited Jason Iverson real quick

76

00:06:34.230 --> 00:06:47.619

Kumpy's iPhone: To be in our meeting, because he might have some updates with Omra. He wants to. Might hear out some stuff we got going on but if you want to start, Jason, go for it. If you got any updates with Omra and what's going on with with you guys.

77

00:06:48.140 --> 00:06:53.582

Jason Iverson: Oh, I mean, the the rule book update was really the only kind of big thing that we're working on right now.

78

00:06:54.329 --> 00:07:03.329

Jason Iverson: I think most stuff is kinda business as usual. I don't think we're gonna see any drastic changes for next year.

79

00:07:03.380 --> 00:07:10.250

Jason Iverson: Hopefully, not, you know, different personnel in different positions. But I don't think anything that would, you know, catch anybody

80

00:07:10.550 --> 00:07:12.780

Jason Iverson: too super off guard?

81

00:07:15.300 --> 00:07:22.829

Jason Iverson: I'm not sure if you guys are aware Race hero is going to be shutting down at the beginning of or at the end of this year.

82

00:07:23.661 --> 00:07:27.858

Jason Iverson: which? You know, we both. I think we both use

83

00:07:28.250 --> 00:07:44.559

Jason Iverson: orbits in my lapse, and then race hero is a is a another product by that same by the mylapse company. And so they will just be discontinuing that part of their service. But all of the same content should be available on my lapse.

84

00:07:46.040 --> 00:07:53.950

Jason Iverson: So that's about all I have. I mean, if you guys have any questions or anything on anything specific, I'm happy to answer that the best of my ability.

85

00:07:54.460 --> 00:08:01.340

Tico Sandoval: Does anybody know if the race hero? So I know we use race hero for a while. Is that just a a track?

86

00:08:02.215 --> 00:08:06.031

Tico Sandoval: Time portion of my laps, or is that

87

00:08:06.510 --> 00:08:12.159

Tico Sandoval: any does that? Is there any registration information on there, or any writer? Information on there.

88

00:08:13.000 --> 00:08:19.650

Jason Iverson: It is. Basically it's just a different way to view the same information.

89

00:08:19.800 --> 00:08:20.390

Tico Sandoval: Okay.

90

00:08:20.934 --> 00:08:28.805

Jason Iverson: So so we I know as Omra, you know, we're not putting any information into race hero. We just put the

91

00:08:29.260 --> 00:08:32.570

Jason Iverson: of the information into to mylapse.

92

00:08:32.720 --> 00:08:35.179

Jason Iverson: and then it goes from there.

93

00:08:36.089 --> 00:08:39.949

Jason Iverson: So yeah. So I'm not sure if there's

94

00:08:40.250 --> 00:08:48.710

Jason Iverson: any information that would need to be taken off of there. I'm not a super expert on exactly on all the moving parts on that. But

95

00:08:49.560 --> 00:08:50.720

Jason Iverson: but I'm talking.

96

00:08:50.720 --> 00:09:02.779

Jason Iverson: he said, yeah, that's not really. You know, we'll just direct information to where people expect to know that like that won't work. But you know, just to go to my laps instead.

97

00:09:03.780 --> 00:09:04.910

Tico Sandoval: Okay, yeah. Cool.

98

00:09:05.630 --> 00:09:06.460

Kumpy's iPhone: Our main.

99

00:09:06.460 --> 00:09:09.649

12535928762: We gave up Race Hero a couple of years ago, too.

100

00:09:12.230 --> 00:09:14.230

Louis Stevenson: Yeah, we haven't used it in a couple of years.

101

00:09:14.470 --> 00:09:15.390

Jason Iverson: Oh, okay.

102

00:09:16.750 --> 00:09:17.960

Louis Stevenson: Been using my laps.

103

00:09:18.390 --> 00:09:21.160

Jason Iverson: Using my laps exclusively. I think Omer was using both.

104

00:09:22.010 --> 00:09:26.023

Kumpy's iPhone: Not the same as speed speed. Hive. My lap's not the same as

105

00:09:26.310 --> 00:09:27.220

Louis Stevenson: It's the same.

106

00:09:27.760 --> 00:09:28.699

Jason Iverson: Yeah, it's the same same.

107

00:09:28.700 --> 00:09:32.060

Louis Stevenson: It's a separate app, but I think the my lapse is the current one, that

108

00:09:32.390 --> 00:09:35.700

Louis Stevenson: it sounds like that. They've just they're relegating

109

00:09:36.110 --> 00:09:38.429

Louis Stevenson: my, that other one speed hive so.

110

00:09:39.010 --> 00:09:39.710

Jason Iverson: Yeah.

111

00:09:40.470 --> 00:09:41.190

Kumpy's iPhone: Okay. Cool.

112

00:09:41.190 --> 00:09:44.869

Damon Poor: Both downloaded on my phone. So, knowing which one to use is super handy.

113

00:09:45.000 --> 00:09:51.569

Louis Stevenson: Yeah, my labs high, they call it speed hive. So that is the same thing.

114

00:09:51.570 --> 00:09:52.020

Louis Stevenson: Same thing. Yeah.

115

00:09:53.300 --> 00:09:58.859

Kumpy's iPhone: Cool. Well, I have a quick question for you. Jason. We're our main topic of discussion tonight is gonna be

116

00:09:58.870 --> 00:10:03.729

Kumpy's iPhone: talking about the banquet coming up. What are some of the hidden misses of your banquet?

117

00:10:05.201 --> 00:10:17.448

Jason Iverson: Man, I don't know. I think ours overall went. Well, I mean some things that we you know, I the big kind of ponderings that we kind of had with with ours, I would say, is

118

00:10:18.200 --> 00:10:22.240

Jason Iverson: location. And it and it's funny is, you know, Portland.

119

00:10:22.260 --> 00:10:42.810

Jason Iverson: some of it. Some people really like the location that we have, and I think some people kind of dislike the location and I think some of that just comes down to whether or not you're a person that can take an uber from your house to the to the venue, and then take an uber home. You know I you know I would say that. And

120

00:10:43.580 --> 00:10:47.350

Jason Iverson: over the last few years, you know, trying to figure out, how do we balance

121

00:10:47.739 --> 00:11:05.709

Jason Iverson: cost quality and convenience, you know, and some of the reasons that we use the location that that we do is because that because they can provide food they. You know, we don't have to to go through an outside catering source. And so some of that, with the use of the the facility there.

122

00:11:06.028 --> 00:11:19.080

Jason Iverson: You know they can do all of the food, food, and beverage in house, so that that helps us streamlines, streamlines, things for us so that we don't have to have, you know, outside catering as well as having a venue.

123

00:11:19.688 --> 00:11:23.040

Jason Iverson: So those were kind of some some factors.

124

00:11:23.430 --> 00:11:25.099

Kumpy's iPhone: How many did you have in attendance.

125

00:11:26.180 --> 00:11:29.060

Jason Iverson: Oh, man, I should know

126

00:11:29.190 --> 00:11:32.739

Jason Iverson: off the top of my head. I don't think I did. I want to say it was like.

127

00:11:33.140 --> 00:11:36.209

Louis Stevenson: 100 and 5 ish, but I could be wrong on that.

128

00:11:36.410 --> 00:11:38.109

Jason Iverson: I don't know. Specifically.

129

00:11:38.500 --> 00:11:39.440

Kumpy's iPhone: Did you internal.

130

00:11:39.440 --> 00:11:40.050

Jason Iverson: Find it.

131

00:11:40.430 --> 00:11:47.970

Kumpy's iPhone: Did you encounter any people where they wanted to attend, but didn't pay for dinner, or or there wasn't enough for dinner.

132

00:11:50.450 --> 00:11:55.049

Jason Iverson: As far as like they wanted to attend, but didn't want. Didn't want to pay that amount.

133

00:11:55.260 --> 00:11:55.980

Kumpy's iPhone: Yeah.

134

00:11:55.980 --> 00:11:57.719

Jason Iverson: Or or or not, but.

135

00:11:58.120 --> 00:12:01.639

Kumpy's iPhone: We're having. I think we're capped off at a hundred 10.

136

00:12:01.790 --> 00:12:13.540

Kumpy's iPhone: And then so we're close to that number. So I think that we are gonna start offering tickets to be sold for a lot less, actually. But you know, not including dinner, that's all.

137

00:12:13.850 --> 00:12:19.670

Jason Iverson: Oh, okay, I see that makes sense where it's like attendance. Only not including. Okay.

138

00:12:19.880 --> 00:12:36.004

Jason Iverson: Yeah. I mean, I guess, depending on the setup, you know, like that may or may not, you know, may or may not make sense, may or may not be easy to to administrate, you know, just specifically like depending like, if you have, like an early entry, time and late entry time, or something like that, you could do something something similar.

139

00:12:36.350 --> 00:12:37.969

Jason Iverson: I know with with ours.

140

00:12:38.323 --> 00:12:47.700

Jason Iverson: You know, we give away a lot of a lot of tickets as far as like sponsors and volunteers. You know, they they get in for free. So.

141

00:12:48.540 --> 00:12:49.990

Kumpy's iPhone: Same with us. Same with us.

142

00:12:50.300 --> 00:12:52.729

Kumpy's iPhone: Cool, all right. You have anything else to add.

143

00:12:54.317 --> 00:12:59.440

Jason Iverson: I don't think so unless you guys have questions. I mean, just kinda

144

00:12:59.450 --> 00:13:04.090

Jason Iverson: bopping in just to say, Hi, and you know all of that.

145

00:13:04.620 --> 00:13:10.849

Kumpy's iPhone: We appreciate your time, feel free to to jump out or bounce out when you need to, but otherwise you can just hang for a minute, or whatever you want to do.

146

00:13:11.600 --> 00:13:13.459

Kumpy's iPhone: Alright. Thank you. I appreciate it.

147

00:13:13.810 --> 00:13:19.470

Kumpy's iPhone: Yeah, thank you. We'll move on to. Cj, you're up. What do you got? Vp.

148

00:13:21.487 --> 00:13:25.230

Cj: It's December not a whole lot going on for me at this point.

149

00:13:25.957 --> 00:13:37.170

Cj: I know we've got some couple of things to talk about. The only thing really is the I finally got answers from a couple of folks that caught Mallory when I was down at Cvma last weekend about

150

00:13:37.460 --> 00:13:44.979

Cj: the changes to the pricing so based on input I've got from everybody we're gonna up to

151

00:13:45.040 --> 00:13:51.740

Cj: the race price. I think Don's the only one that was against so we just need to update that. And then we're gonna take it out of the rule book.

152

00:13:52.150 --> 00:13:53.120

Cj: Lewis. Yeah.

153

00:13:53.120 --> 00:13:56.340

Louis Stevenson: Yeah, it's already out. I put a link in there to the website. So.

154

00:13:56.340 --> 00:13:57.620

Cj: Okay, perfect.

155

00:13:58.362 --> 00:14:04.179

Cj: So yeah, it's just a race license fee is goes from, was it 65 to 70?

156

00:14:04.570 --> 00:14:05.180

Louis Stevenson: Yes.

157

00:14:05.430 --> 00:14:12.420

Cj: And then the license fee is 1 30 days still, I believe, and then there's

158

00:14:12.872 --> 00:14:20.230

Cj: a petition for a writer. But I'll leave that to the writer up to bring up. We can talk about that when that comes up and.

159

00:14:20.890 --> 00:14:22.070

Damon Poor: I have some on that too.

160

00:14:23.080 --> 00:14:27.959

Cj: Okay, I don't have anything from Neil, so I don't really have anything to talk about, as far as numbers are concerned.

161

00:14:30.710 --> 00:14:35.009

Cj: So it's December. Hope everybody has a good holiday, and.

162

00:14:35.400 --> 00:14:35.970

Louis Stevenson: Yeah.

163

00:14:36.450 --> 00:14:37.100

Kumpy's iPhone: Okay, perfect.

164

00:14:37.100 --> 00:14:37.760

Cj: Like this.

165

00:14:37.760 --> 00:14:40.230

Kumpy's iPhone: Cj, did you say that the

166

00:14:40.310 --> 00:14:44.409

Kumpy's iPhone: the license the yearly license has is going up.

167

00:14:44.590 --> 00:14:46.530

Cj: No, the race feed.

168

00:14:46.530 --> 00:14:48.980

Kumpy's iPhone: Oh, race fees. Okay, okay, sounds good.

169

00:14:50.350 --> 00:14:58.000

Kumpy's iPhone: Okay. Let's see. Here I was. Gonna ask Danielle if she's actually ready to if she's able to

170

00:14:58.050 --> 00:15:02.540

Kumpy's iPhone: get people's to sign up for our license renewals at the banquet.

171

00:15:05.100 --> 00:15:09.420

12535928762: I will have it ready tomorrow. So yes, it'll be ready by Saturday.

172

00:15:10.120 --> 00:15:14.479

Kumpy's iPhone: Okay, perfect. Daniel, you since you're up, you wanna.

173

00:15:14.480 --> 00:15:15.010

Louis Stevenson: Okay.

174

00:15:15.010 --> 00:15:17.859

Kumpy's iPhone: Want to add anything on the right.

175

00:15:17.860 --> 00:15:19.499

Kumpy's iPhone: I don't have anything.

176

00:15:20.087 --> 00:15:29.370

12535928762: I'll I'll have that ready to go. Karen asked me a question, but I'm driving so I don't know the total revenue for the banquet, but I'll find that out as soon as I

177

00:15:29.380 --> 00:15:33.159

12535928762: get at home. But other than that I don't. I don't have anything else.

178

00:15:34.880 --> 00:15:37.249

Kumpy's iPhone: Okay, sounds good. Sounds good. Appreciate it.

179

00:15:37.567 --> 00:15:43.720

Kumpy's iPhone: Let's see here, I guess we'll go through. Let's see what you got, Damon, do you have anything for novice side of stuff.

180

00:15:43.720 --> 00:15:56.449

Damon Poor: Oh, yeah, got a bunch of things. Trying to pull up this email. And unfortunately, I'm having a hard time finding it. But I believe it was a Woo Heilman. Yes, there we go.

181

00:15:58.020 --> 00:16:08.500

Damon Poor: Elou Heilman, 15 year old lady, just out of curiosity, who received the email regarding her race resume to petition the board.

182

00:16:08.870 --> 00:16:13.480

Damon Poor: I can see a couple of hands. I got 1, 2, 3. Okay. So some people seen it better yet.

183

00:16:13.640 --> 00:16:21.030

Damon Poor: Please say something. If you've not heard about this, because I would like to talk about this now, unless there's a better time to talk about it.

184

00:16:21.030 --> 00:16:24.570

Don: I have not heard about it, but I'm about it. But I didn't see the email.

185

00:16:24.980 --> 00:16:27.779

Louis Stevenson: Go ahead and bring it up because I was gonna talk about. If you didn't.

186

00:16:27.780 --> 00:16:34.129

Damon Poor: Okay, cool. So here is the I guess. Spiel with it.

187

00:16:34.530 --> 00:16:36.899

Damon Poor: We have a parent.

188

00:16:37.290 --> 00:16:48.099

Damon Poor: I believe his name let me go through. Here is Matthew Heilman. He's a gentleman who's going to be participating with Wimra as a novice this year. I

189

00:16:48.230 --> 00:16:55.879

Damon Poor: I think I'm not entirely sure that he was a licensed expert in the past, but I can't verify that. So I might be making stuff up

190

00:16:56.300 --> 00:17:12.460

Damon Poor: regardless his daughter, who's 15. Ella is interested in participating in Wimra this year as a novice. Since she's under 18, they put in a petition to petition the E-board and say, Hey, this is what I want to do, and this is why I want to do it.

191

00:17:13.157 --> 00:17:24.150

Damon Poor: She has a severe amount of experience riding bikes with Cascadia for those who have seen her resume. It seems pretty legitimate.

192

00:17:24.719 --> 00:17:29.110

Damon Poor: At the end of the day. The short summary is

193

00:17:29.706 --> 00:17:39.931

Damon Poor: this lady has been participating in motorsports riding from Cascadia Moto to supermoto as well as

194

00:17:40.840 --> 00:17:44.740

Damon Poor: a couple of other different racing divisions where she's

195

00:17:45.070 --> 00:17:51.529

Damon Poor: gotten sponsors from 2 wheel, a couple other larger sponsorships. So she's well known. She's

196

00:17:51.550 --> 00:18:03.799

Damon Poor: earned podiums in her division in her groups, and it seems like from the accompanying testimonies that she seems to be pretty reputable as a writer.

197

00:18:03.890 --> 00:18:10.659

Damon Poor: So one of the things that we're looking at is voting on, whether she is going to be able to participate in the 2024 novice season

198

00:18:11.245 --> 00:18:17.800

Damon Poor: the current plan for the father and daughter combo real quick. Let me finish they bought

199

00:18:18.080 --> 00:18:23.349

Damon Poor: Ninja 400 s. Father and daughter will both participate in the.

200

00:18:23.360 --> 00:18:30.189

Damon Poor: I believe it was lightweight super sports and bum, bum, bum, and super.

201

00:18:30.190 --> 00:18:30.710

Louis Stevenson: Like.

202

00:18:30.710 --> 00:18:32.250

Damon Poor: Superbike correct.

203

00:18:32.597 --> 00:18:41.452

Damon Poor: On the small bikes as a father, daughter, kind of organization they'll be putting together. I'll be working with them as novices if they get the acceptance.

204

00:18:42.340 --> 00:18:54.620

Damon Poor: But yeah, that is the request. Dad and daughter both positioned the E board to say, Hey, I want to do this. I spoke with the dad a good couple times, and everything I've seen from the

205

00:18:54.740 --> 00:19:03.579

Damon Poor: resume as well as the testimonials from other writers, seem to be pretty legit. I have no complaints. Does anybody have anything else before we move to a vote?

206

00:19:06.230 --> 00:19:08.500

Cj: So I'm for it. The only thing

207

00:19:08.500 --> 00:19:11.729

Cj: add is, I just want to bring up the fact that she's only been on

208

00:19:11.900 --> 00:19:20.750

Cj: Mini bikes is on track. So she's she's obviously it's going to be a novice thing. She's we just have to make sure we're paying attention to the classes that

209

00:19:20.890 --> 00:19:24.429

Cj: we're allowing. I don't. And I have an issue with the age. I don't have an issue with the bike

210

00:19:24.970 --> 00:19:31.366

Cj: we just gotta make sure we pay attention to the loud classes that they're entering.

211

00:19:32.000 --> 00:19:32.929

Damon Poor: That's something I

212

00:19:32.930 --> 00:19:46.749

Damon Poor: plan on taking a large amount of interest in, especially during the off season as well as the Nrs. So I'm going to be working with them expressly. I worked a lot with Sawyer and John when they petitioned and got in last year.

213

00:19:46.760 --> 00:20:01.119

Damon Poor: I really wanted to make sure they were up to snuff. Because, you know, a kid racing is a big deal, and it's even. It's an even bigger deal if the parent is not involved or less involved. But considering that the dad is also going to be going through the Nrs.

214

00:20:01.120 --> 00:20:02.540

Louis Stevenson: Required by the rules.

215

00:20:03.020 --> 00:20:03.630

Damon Poor: Yeah.

216

00:20:03.910 --> 00:20:09.069

Louis Stevenson: Yeah, you have to have somebody go through nrs with by the rules. So with them. So.

217

00:20:09.800 --> 00:20:10.280

Damon Poor: So, yeah.

218

00:20:10.670 --> 00:20:16.920

Louis Stevenson: Also, they are missing the liability waiver by both parents. That's the only thing that's holding

219

00:20:16.960 --> 00:20:23.880

Louis Stevenson: on my end. I will vote. And I say, it's okay, but they need to get that submitted before they can do anything. So.

220

00:20:24.240 --> 00:20:27.249

Damon Poor: I don't know anything about that. If you could send me an email.

221

00:20:27.250 --> 00:20:31.660

Louis Stevenson: There's a supposed to be a liability waiver signed by both parents or legal guardians.

222

00:20:32.100 --> 00:20:32.580

Damon Poor: Robust.

223

00:20:32.580 --> 00:20:33.589

12535928762: I have it.

224

00:20:33.690 --> 00:20:35.300

12535928762: I'll email it.

225

00:20:36.020 --> 00:20:36.839

Damon Poor: Okay, cool.

226

00:20:39.344 --> 00:20:45.570

Damon Poor: I guess anyone have any questions about the situation. I can publish the emails

227

00:20:45.620 --> 00:20:49.709

Damon Poor: that I have to anyone who would like to know about it, or I could talk about them.

228

00:20:50.460 --> 00:20:59.019

Cj: No, I got one question that is on the class availability. So I know we said lightweight, super sport and lightweight super bike.

229

00:20:59.850 --> 00:21:01.100

Louis Stevenson: Like that this yeah.

230

00:21:01.400 --> 00:21:10.179

Cj: So I know that they're on a small bike. So they're not gonna do the traditional 600,000 classes whatever. But are those the only 2

231

00:21:10.610 --> 00:21:13.300

Cj: that they're going to be trying to enter.

232

00:21:14.100 --> 00:21:20.230

Damon Poor: From what I understand, that is what their email particularly specifies.

233

00:21:20.410 --> 00:21:32.530

Damon Poor: Ninja 400 s. With the goal of competing in the same classes. Lightweight, super sport, and superbike is what they mentioned. They may or may not race other races, but those are at least the 2 that were typed out and sent to me.

234

00:21:32.530 --> 00:21:37.710

Cj: Well, because as novices they're only so they they get to run 2 classes in lieu of a single. So

235

00:21:38.170 --> 00:21:41.110

Cj: just wanna make sure that we're paying attention to the entries.

236

00:21:41.470 --> 00:21:42.060

Damon Poor: Okay.

237

00:21:43.772 --> 00:21:54.619

Damon Poor: I'll double check with them and make sure that they understand that caveat of rules. But it sounds like those are the 2 they want, and as long as that is something they are allowed to do, it seems like they'd be happy.

238

00:21:59.220 --> 00:22:04.769

Kumpy's iPhone: Sounds good. I guess we're in. Does anyone oppose to to them petitioning.

239

00:22:05.770 --> 00:22:08.179

Cj: No, no, no poses, no.

240

00:22:08.180 --> 00:22:15.890

Damon Poor: Okay, cool by unanimous decision. Looks like they are allowed to participate in the 2024. Excuse me. 2025

241

00:22:16.000 --> 00:22:25.709

Damon Poor: novice race season. I will talk to both Matthew and Ella, and let them know the next steps. They will be participating in the full novice program.

242

00:22:26.110 --> 00:22:35.620

Damon Poor: whole kit and caboodle. They won't be allowed to participate or buy licenses unless they complete both the in class and on track portion, just like everybody else. And that's

243

00:22:35.960 --> 00:22:47.959

Damon Poor: what I have to say for that. Next thing I have is with the banquet coming up. We got some novices graduating. I'm going to be going through and talking about a couple things with

244

00:22:48.400 --> 00:22:51.190

Damon Poor: Tico. I believe we were.

245

00:22:51.240 --> 00:22:59.029

Damon Poor: Gonna try and shell out some cute little gifts that we were able to maybe make happen. I'm not entirely sure. I think I see a nod and a smile.

246

00:23:00.297 --> 00:23:21.420

Damon Poor: I've been a bit on fire with work recently, especially with the storm. So that's been kind of taking care of that. But starting to get back in focus with the graduates, I got their names and numbers

ready to go. I know Danielle is slowly but surely I don't wanna say slowly, excuse me, I should say the novices are slowly but surely petitioning Danielle to get their numbers ready to go for the beginning of the year. But

247

00:23:23.540 --> 00:23:39.530

Damon Poor: yeah, so come the banquet we got the list of novices that we finalized that are going to be for sure. Graduated that got all their paperwork in done in time, ready to go. We got some stuff for them that I'll be

248

00:23:39.570 --> 00:23:42.969

Damon Poor: giving out with Tico on the banquet day.

249

00:23:43.010 --> 00:23:48.849

Damon Poor: And then one last thing that I have for the last of my business is

250

00:23:50.594 --> 00:24:17.989

Damon Poor: Tico put together a pretty awesome situation with the with the website, there is a way for new people that show up to the Wimmer website that can say, Hey, I don't know anything about the program. What can I do to get involved? More than just hey contact this email at novice rep whatever. And it's as simple as I'm interested in racing. They click on a link. They fill out some information and a phone number boom, bang! Bing!

251

00:24:18.310 --> 00:24:32.720

Damon Poor: Tico and I both get a copy of the email saying, Hey, this is their question, and then we can talk to them directly from there, and we've captured their information. Tico did a great job on that. I'm super stoked. I really appreciate it.

252

00:24:33.167 --> 00:24:43.100

Damon Poor: I can't remember off the top of my head how many people we already have signed up, or at least interested in participating in the Nrs classroom

253

00:24:43.547 --> 00:24:48.442

Damon Poor: next year. But I wanna say, we're in the twenties already.

254

00:24:48.890 --> 00:24:51.020

Tico Sandoval: Say again, that's awesome.

255

00:24:51.020 --> 00:24:56.829

Damon Poor: Yeah, it's it's looking. It's it's it's not even banquet time. And we have 20 novices signed up.

256

00:24:56.880 --> 00:24:58.796

Damon Poor: you know, Ish for the

257

00:24:59.280 --> 00:25:06.149

Damon Poor: registration for next year. So I'm big excited for that. Hopefully, we're gonna have an awesome big new classroom session for next year.

258

00:25:06.463 --> 00:25:17.789

Damon Poor: So yeah, that's the information. I have all the dates for Nrs on class and in track. Excuse me in class and on track are posted. If anyone has any questions for me. That's pretty much all I got.

259

00:25:18.140 --> 00:25:19.609

Damon Poor: and I'll pass my time.

260

00:25:20.150 --> 00:25:25.510

Kumpy's iPhone: Cool, sweet thanks so much! Thanks so much. Damon. Alright! So tico! I guess you're up. Then.

261

00:25:26.074 --> 00:25:35.545

Tico Sandoval: Alright happy holidays, everybody. Yeah. I got a little couple of things to update everybody with. I'll get to the banquet at the end here.

262

00:25:36.080 --> 00:25:44.779

Tico Sandoval: 1st and foremost. So the website as they've been mentioned, has been going through some revisions. I'm slowly working through some of those pieces that have been outdated

263

00:25:45.185 --> 00:25:53.369

Tico Sandoval: completely revised the novice link. Like, want to race. Learn to race. All those details have been updated with that request. Form

264

00:25:53.908 --> 00:26:14.589

Tico Sandoval: and if you haven't been to the website recently, you may notice there is a merch shop link on the website, and people have already started purchasing stuff off of the website for for us. So there is a cost breakdown. But we end up making like 10 to 15 or \$20 on the items depending on what item it is

265

00:26:15.026 --> 00:26:29.540

Tico Sandoval: so that's pretty exciting. So if you haven't checked it out yet, do so. I've ordered a couple of shirts for family for Christmas or 2. There's more stuff that's gonna go to it. Just so, you know, this is the 1st iteration of

266

00:26:29.980 --> 00:26:55.549

Tico Sandoval: shop. We'll be adding things to it. There is a you know, the merch shop doesn't cost us anything to have, but if we start adding items beyond their minimum requirement, then it starts costing us money. So I'm doing it where it doesn't cost us anything at all to to have the shop right now. But if there's items that we want to have, and we're talking like 800,000 different items we can have on that site. Let me know if you have ideas of things that you want to put on there

267

00:26:55.840 --> 00:26:56.540

Tico Sandoval: right now. It.

268

00:26:56.540 --> 00:26:57.540

Louis Stevenson: What service are you using.

269

00:26:57.540 --> 00:26:59.110

Tico Sandoval: Certain things out. What's that.

270

00:26:59.290 --> 00:27:00.670

Louis Stevenson: What service are you using.

271

00:27:01.028 --> 00:27:09.949

Tico Sandoval: It's through incentive solutions. So they basically set it up for free for us. And everything is on there that's direct to order. So basically someone can go on there.

272

00:27:09.990 --> 00:27:25.133

Tico Sandoval: find something they want, order it. It goes directly to them. And then quarterly, or or maybe it's monthly. We get a check sent to Walmart for the amount that we get. So there's a flat cost for the actual item, and then the rest goes to us. So

273

00:27:25.430 --> 00:27:27.883

Damon Poor: Real quick, Tico, I wanna budget on that.

274

00:27:28.640 --> 00:27:39.779

Damon Poor: I actually have ordered some stuff off there. It does look cool. I'm pretty hyped about having a store online where anyone can buy anything. I'm in touch with at least 2 different, pretty reputable graphic designers. So

275

00:27:39.780 --> 00:27:40.400

Damon Poor: oh, if we

276

00:27:40.400 --> 00:27:53.950

Damon Poor: we're trying to create something that's a little bit more different than the basic Wimra logo I can get whoever wants to in in touch with those guys, and maybe we give them a flat rate, you know, 5,000 bucks or whatever to.

277

00:27:53.950 --> 00:27:54.430

Tico Sandoval: Einstein.

278

00:27:54.656 --> 00:28:00.960

Damon Poor: You know, make a cool design, and then we could sell it on the website with something other than just the whim around the front. Nothing on the back. Kind of thing.

279

00:28:00.960 --> 00:28:24.016

Tico Sandoval: Totally. Yeah, I I totally dig that idea. You know. If there's design concepts send them my way, we can get it uploaded, and then put it on a file, and, like I said, literally can put it on anything. So pretty cool. I I know David and I have been kind of chatting about this, but again, 1st iteration, it'll evolve as we go and get bigger and and better. So so people can, you know, go on there if they want to?

280

00:28:24.620 --> 00:28:34.400

Tico Sandoval: on the the website concept, there are some outdated documents like the Med form documents outdated. I think there's a couple of other documents that are outdated

281

00:28:34.680 --> 00:28:37.409

Tico Sandoval: owns those documents. Does anybody know?

282

00:28:40.186 --> 00:28:48.793

Tico Sandoval: I kinda wanna make them evergreen so that we don't have to replace and and update those documents. I know the Med forms like a 2022 Med form

283

00:28:49.410 --> 00:28:50.060

Tico Sandoval: so other.

284

00:28:50.060 --> 00:28:52.610

12535928762: The new Med form doesn't have a date on it.

285

00:28:52.930 --> 00:28:54.030

Tico Sandoval: Okay, cool. Yeah, so.

286

00:28:54.030 --> 00:28:59.789

12535928762: So we there is a universal one between Wimmer and over. Now. Yeah.

287

00:28:59.790 --> 00:29:19.640

Tico Sandoval: Yeah, if you have those documents send to me and I'll get I'll get them updated on the site so that we can get them to to live there and not have to. My, my goal is to make things not static, so that we don't have to keep updating stuff on the site. It just kind of lives in a place where it's like it's either an evergreen document, which means there's no dates on it.

288

00:29:19.640 --> 00:29:42.476

Tico Sandoval: and it's requiring the same information. Or it's links to things that get updated. But the less we have to do on that end the better it is because inevitably things get forgotten. And then someone goes to it and says, Hey, this is an old, old information. And we're trying to just minimize that. So if we have. I'll I'll send a list out to everybody in terms of certain documents and see if we can get updated. I don't want to bore everybody on the call

289

00:29:42.750 --> 00:29:43.829

Tico Sandoval: with that info.

290

00:29:43.830 --> 00:29:44.480

12535928762: Thank you.

291

00:29:44.480 --> 00:30:04.960

Tico Sandoval: Yeah, absolutely. In regards to other things. Updates, wise on sponsorships. We have confirmed 12 sponsors so far for 2025 right now. That's an as estimating around \$12,000 in in sponsorship money that's come in.

292

00:30:05.381 --> 00:30:13.107

Tico Sandoval: I'm waiting for a few more confirmations. But but that's that's pretty good, I think, for for a start

293

00:30:13.810 --> 00:30:14.929

Kumpy's iPhone: How many of them?

294

00:30:15.480 --> 00:30:15.860

Kumpy's iPhone: What's that?

295

00:30:15.860 --> 00:30:20.639

Kumpy's iPhone: Sorry? Sorry to interrupt you? How many of them are new, and how many other are there returning.

296

00:30:21.240 --> 00:30:35.679

Tico Sandoval: There's a few. There's a handful of returning. I can give you the number off hand. You know. Obviously, there's people who have sponsored, who are now coming back and sponsoring, which is fantastic. I've had a lot of really hard conversations with a lot of current past sponsors

297

00:30:35.700 --> 00:30:44.279

Tico Sandoval: that, you know, are struggling to see value in regards to sponsorship. And so, as I mentioned in my la, our last call, my goal is really to really support

298

00:30:44.790 --> 00:30:59.960

Tico Sandoval: and provide value to the current sponsors and things that we can commit to. You know, putting putting things in place that really makes an impact to their businesses whatever those needs are. I'm having some custom conversations with people in regards to what they would like to see

299

00:31:00.497 --> 00:31:24.590

Tico Sandoval: long term goals. Obviously for us to really grow the group and make it so that people want to come and be part of the Walmart organization. It's a slow process, obviously but I'm pretty happy with the kind of response I'm getting when people start listening to that that kind of conversation. And obviously the proof's gonna be in the pudding. In regards to that the reality is the things that we need to commit to

300

00:31:24.901 --> 00:31:41.739

Tico Sandoval: really promoting the the sponsors really getting our our name out there into all the shops and all the places where people are riding, getting into the event calendars going to bike nights, those kinds of things that really have a presence and having the Logos of our sponsors and really promoting them

301

00:31:41.740 --> 00:31:59.370

Tico Sandoval: in a way that's really significant is gonna be important. So I'm probably gonna ask all of us, and and maybe the group to as we start posting stuff in 2025, when we get the sponsor list up that we have the messages that go out that really, you know, support our our people that are that are sponsoring us and really giving them

302

00:31:59.664 --> 00:32:26.479

Tico Sandoval: some kudos beyond just visibility for our race weekend. So a lot more to come on that I've already talked about the vision I have for what I want to do for the club in this role. But I think it's pretty cool that we have that many currently looking to do stuff and and more down the road. So my goal is to have everything locked in by the end of January to get the Logos created, or get the Logos on our calendars and actually have print material

303

00:32:26.480 --> 00:32:37.609

Tico Sandoval: that goes out. Bringing back. You know, a lot of things that are really making the club a little bit more more, you know. Worthwhile. Or, again, sponsorship perspective.

304

00:32:38.054 --> 00:32:45.679

Tico Sandoval: Any questions on on that sponsorship piece? Just so. And and the sponsorship perspective has been updated on the website. So if you want to see what we're offering

305

00:32:45.770 --> 00:32:50.660

Tico Sandoval: for groups, there are some tweaking here and there depending on who I'm talking to. But but that's pretty much.

306

00:32:50.790 --> 00:32:52.800

Tico Sandoval: pretty much set at this point.

307

00:32:55.030 --> 00:32:56.349

Tico Sandoval: Okay, I did have.

308

00:32:56.350 --> 00:33:04.999

Damon Poor: Quick on the on the sponsors. Did you have any like overarching broad complaints that we could all think about how to solve other than.

309

00:33:05.060 --> 00:33:10.569

Damon Poor: Hey, I'm a sponsor. I pay this much money. It's great that I sponsor the class. It's written in the banquet

310

00:33:10.660 --> 00:33:18.110

Damon Poor: like pamphlet, and that maybe a couple guys on podium say something, but it's a really good

311

00:33:18.110 --> 00:33:21.259

Damon Poor: my head around how we can help them. And exactly what do they want?

312

00:33:21.260 --> 00:33:36.760

Tico Sandoval: Yeah, that's a really good question. Everyone's a little bit different in terms of their needs. Most people are willing to sponsor because they just want to be part of the community and support the club. So there's this, you know. There's this feeling of saying, Hey, I just want to make sure that the club survives and we're doing our part.

313

00:33:36.990 --> 00:33:51.319

Tico Sandoval: But the biggest overarching theme is that you know, they've paid money, and that's kind of all they've gotten in in regards to you know, they've had maybe a couple of mentions at writers meetings they've had. Maybe some website logo display.

314

00:33:51.380 --> 00:34:19.300

Tico Sandoval: And that's that's kind of it. Kind of dies out. After that there's not a lot of significant value to the Roi I mean, Mark, you're on the call. You might want to speak to that a little bit, but I think the the big arching theme is, what am I getting out of it that I can't do some other way. A lot of a lot of the the people that are sponsoring. You know, they're not necessarily looking for a huge roi there. It's not going to be a direct sales type situation.

315

00:34:19.449 --> 00:34:33.939

Tico Sandoval: but they are looking for some something that's a little bit more significant than I've paid my money. And and now what kind of question, Mark? Mark, did you wanna chat a little bit about? You know your perspective, I think you and I had a really great conversation around. What you were looking for.

316

00:34:34.620 --> 00:34:59.199

EmDee35: Yeah, I know I've always felt the club's done pretty good for me, but being close with a lot of other vendors, it's it's almost been. They paid their money. Other vendors haven't. There's been no enforcement of other vendors not paying, and some vendors paying, and then they get nothing back. And so it's like, what did I pay this \$600 for? And so and so over here is vending, and they didn't pay a dime, and they had to pay a vendor fee, you know, vendor fee and sponsorship, or 2 different things, but that was, I know, from the contention before, and so.

317

00:34:59.420 --> 00:35:16.100

EmDee35: and when I was president it was just always trying to get them something back. I know myself as a vendor. I'm not going to see a direct one to one or 2 to one return on the investment. I want to support the club. I would love the club to make an effort to make me feel appreciated. Not in Heymark, thank you. But hey, we're gonna

318

00:35:16.190 --> 00:35:42.229

EmDee35: advertise it, you know, since I'm sponsored novice class. It's too fast novice class, and you know anything you can do. I think like that shows the vendor that you're making an effort. I think they're all pretty wise and know that they're not going to make a ton of money off this. It's a losing proposition, but they get some effort back. It shows a lot of appreciation support. And then it helps the club get this revenue that we need. It's important to have that. So making an effort is the biggest thing, not just taking the money. Say thank you, and not doing a damn thing for them.

319

00:35:43.400 --> 00:35:59.459

Tico Sandoval: Yeah. So I know that's pretty fair. The kind of things that that we're gonna be doing is doing like Co branded messages for, like, you know, certain certain groups that want to sponsor or they're sponsoring or like, Hey, I want to do promotion, Midyear.

320

00:35:59.910 --> 00:36:21.110

Tico Sandoval: Can we send an email out to the group and say, Hey, on behalf of one of our key sponsors, they'd like to do a message to promote a certain thing they they're doing like an event they're having. That's the kind of stuff that I don't think we've really seen a lot of you know, I'm with Arma for racing as well, and they do tons of that kind of stuff which is like, oh, I didn't know that this group did. Xyz

321

00:36:21.642 --> 00:36:27.389

Tico Sandoval: so a little bit of supporting those those sponsors with some

322

00:36:27.689 --> 00:36:48.989

Tico Sandoval: active messaging on their behalf not to give everybody just a lead list and say, use, you know, contact everybody on Walmar. But controlling that, to be able to say, Let's let's do a joint message that's appropriate to our club, and that also supports you as a as a vendor. So that those are the kind of things that we're going to be doing this year. In addition to our social media stuff. And again, like

323

00:36:48.990 --> 00:36:59.959

Tico Sandoval: and anytime, we have something that goes out social media. Why are our sponsor Logos on those pieces. Why isn't there some sort of messaging around that? I had a conversation with Sage, for example.

324

00:37:00.487 --> 00:37:18.939

Tico Sandoval: just a couple of days ago, and he and I were talking about, like, you know, bringing, you know, some sort of sponsor highlights. Having, like a Youtube video or an interview session with like what? What you know, what brings you to racing? How do you get involved? Things that are going to drive traffic to our website? But it also supports him as a vendor

325

00:37:18.940 --> 00:37:38.699

Tico Sandoval: and supports him, as you know, kind of a person who's been involved in racing for many, many years. Really cool things that you know, that are going to change, that I think a little dynamic in terms of what what they they get from that. And then, you know the long term visibility that's going to be there. For you know that video being available for life really.

326

00:37:38.968 --> 00:37:54.780

Tico Sandoval: until the end of the Internet. So those are the kind of things that that I'm working on to help promote the sponsors that we do get things that again I can do, and I can commit to versus the big goal of being really large and present and having a massive impact

327

00:37:55.059 --> 00:38:21.290

Tico Sandoval: on a larger scale. So again. More to come on that. But any, that's a good question, Damon. I don't know right now offhand what else we could do other than just making sure that, you know, I think we mentioned this at the writers. Meetings like, let's make sure our sponsors feel supported. But what does that really mean right? Like that's that's a hard thing to kind of put a put a your hand around or your your mind around when it's like, Okay, well, it's not an industry that I'm interested in. It's something I'm gonna be purchasing, you know.

328

00:38:22.530 --> 00:38:27.110

Tico Sandoval: services may not be something I need help with. But still being able to give them something.

329

00:38:27.630 --> 00:38:30.157

Damon Poor: I got a couple of things on that

330

00:38:33.130 --> 00:38:40.309

Damon Poor: who is responsible for officially running our like social media pages? Is all of us. Is it one person.

331

00:38:40.600 --> 00:38:41.957

Tico Sandoval: It's it's me!

332

00:38:42.410 --> 00:38:43.100

Damon Poor: Okay.

333

00:38:43.100 --> 00:38:45.579

Tico Sandoval: And anybody else who wants to help out.

334

00:38:45.580 --> 00:38:59.399

Damon Poor: I'd like to volunteer to help out with at least a little bit of it, you know, from the Facebook and Instagram side. That is my, I guess small amount of forte. Anything other than that I'm not even sure really exists in my life. So if I can help out with that that'd be cool.

335

00:38:59.782 --> 00:39:04.167

Damon Poor: We can talk off off chat here. But the other thing I had was

336

00:39:05.440 --> 00:39:25.550

Damon Poor: I remember being a novice participating in Wimra. One of the most look forward to things I had was at the time. Dane was the Wimra photographer, and he did those videos at the end of every round, and he had drone footage. He had cameras from every bike, and he put together these cute little montages that were just.

337

00:39:25.630 --> 00:39:54.669

Damon Poor: in my opinion, fucking awesome to watch as a novice guy like I just participated in this round. And now I have a cool, 5 min video showcasing how cool motorcycle riding is just slow-mo shots, a couple of cool pictures of people doing wheelies wherever those were awesome, and those were a huge recruiting tool for me and my friends and you know, sponsors were also located in that. And I'm curious. I know, Lewis, you were the photog last year, and I'm I think. Are you doing it this year again.

338

00:39:55.170 --> 00:39:55.819

Louis Stevenson: Oh, yeah.

339

00:39:56.610 --> 00:39:57.570

Damon Poor: What is.

340

00:39:57.570 --> 00:39:58.060

Louis Stevenson: Per year.

341

00:39:58.060 --> 00:40:18.599

Damon Poor: I don't want to throw things on you, and you know I'm just saying but what's what's the probability of doing something like that again, where we can put some sort of end of round montage, where we get some footage from whoever volunteers, or maybe some professional stuff that you've captured, or even little stuff that I get from the pits between pictures and

342

00:40:18.600 --> 00:40:28.859

Damon Poor: and videos, and just do it end of round. This is what happened. Here's all the cool stuff we found. Thank you. Sponsors. Thank you. Riders have a good day like cute little 5 min Youtube video.

343

00:40:28.860 --> 00:40:32.850

Louis Stevenson: If somebody wants to shoot video and do that stuff I'd be happy to contribute.

344

00:40:33.090 --> 00:40:35.660

Louis Stevenson: but actually doing it. I don't have time for that.

345

00:40:35.990 --> 00:40:36.719

Damon Poor: Fair enough.

346

00:40:37.000 --> 00:40:37.600

Louis Stevenson: No.

347

00:40:38.330 --> 00:40:40.280

Tico Sandoval: That's a cool idea, Damon. Similar to.

348

00:40:40.280 --> 00:40:41.949

Damon Poor: It is a lot of work. It is

349

00:40:42.480 --> 00:40:44.419

Damon Poor: know very much about video editing, but.

350

00:40:44.769 --> 00:41:02.919

Louis Stevenson: I'm very much focused on getting the photos edited and organized, and that's he didn't organize photos. And a lot of the stuff I do is additional time on top of what he would have done. He didn't do. He didn't edit either, so he just kind of dumped stuff.

351

00:41:03.070 --> 00:41:05.390

Louis Stevenson: and so I mean

352

00:41:06.110 --> 00:41:15.050

Louis Stevenson: doing. Going through about 8,000 photos in 3 days is astonishing. Honestly it and it means I'm

353

00:41:15.336 --> 00:41:23.249

Louis Stevenson: I go to work, and then I come home and do photos until I go to sleep. I get up. I work on photos. I go to work. And I do that for 3 days.

354

00:41:23.360 --> 00:41:35.190

Louis Stevenson: So yeah, it's there is. And then at the track. I'm also calling photos before I go to bed and then get up in the morning, start shooting again. So yeah, it's really.

355

00:41:35.190 --> 00:41:38.013

Damon Poor: I'm not. I'm not trying to dump anything else on you.

356

00:41:38.270 --> 00:41:38.980

Louis Stevenson: Yeah, I.

357

00:41:38.980 --> 00:41:41.700

Damon Poor: If we were someone to try to put together somebody.

358

00:41:41.700 --> 00:41:43.530

Damon Poor: Video, do you think we could.

359

00:41:43.530 --> 00:41:44.059

Louis Stevenson: You will need to.

360

00:41:44.060 --> 00:41:44.690

Damon Poor: Your material.

361

00:41:45.340 --> 00:41:50.870

Louis Stevenson: Hit shots and stuff like that. If somebody wants to put something together, I'd be happy to donate that stuff so.

362

00:41:50.870 --> 00:42:00.779

Damon Poor: Okay, cool. I'll I'll talk with some people and see if I can't help make something work and maybe figure something out. No promises. But at least exploring the idea. So that's it. From my end.

363

00:42:01.220 --> 00:42:20.272

Tico Sandoval: Yeah, it's a it's a cool idea. Damon, I you know I I would say it becomes a a manpower situation and time situation for for a lot of that similar to that line of thinking. In 2025. I'm gonna bring back the program guides for each round. One of the things that I've heard more than

364

00:42:20.580 --> 00:42:43.450

Tico Sandoval: an earful from a lot of people how much they like having a program guide that has a random photo of someone on the cover that, you know promotes them, and they hang on to that. That's something that sticks around that's in their toolbox. It's in their desk that's on their walls. So that's the kind of things that support writers and obviously promotions, but also allows us to promote our sponsors in that vein as well so.

365

00:42:43.450 --> 00:42:44.200

Damon Poor: I like that.

366

00:42:44.510 --> 00:42:49.459

Tico Sandoval: Yeah. So that's something I'm bringing back as well. So I might be tapping into your graphic designers for that support.

367

00:42:49.460 --> 00:42:57.900

Damon Poor: I need help with printing. I have small access to help with that, too. So send me what you got, and I might be able to produce some amount more than 0.

368

00:42:58.190 --> 00:42:59.530

Tico Sandoval: Oh, awesome! That's cool!

369

00:42:59.966 --> 00:43:05.179

Cj: I got a couple of things on that to talk with you about to go after this. We don't do it here.

370

00:43:05.180 --> 00:43:17.269

Tico Sandoval: Okay, yeah, that's great. I will transition now, just really quickly. Then, to the banquet up, oh, I'm sorry. I do have one more top topic that was raised to me, and I don't know where this fits in in terms of our call here. But

371

00:43:17.572 --> 00:43:35.269

Tico Sandoval: track time Llc. Is one of our sponsors this next year. They have asked to figure out how they can be considered for the track day on Fridays. Going in. Probably not 2026, or 2025 since that's already locked in, but for 2026, and beyond, I don't know if they have the bidding process for that.

372

00:43:35.310 --> 00:43:38.840

Tico Sandoval: or what they're what that looks like, or who's even in charge of that. So.

373

00:43:38.840 --> 00:43:42.789

Damon Poor: A pick by grace between Mark and Alan. Whoever wins gets it.

374

00:43:44.130 --> 00:43:46.820

Louis Stevenson: Restling, match.

375

00:43:47.130 --> 00:43:50.920

Damon Poor: No pit bike race. Well, I'll set up the course and time it it'll be great.

376

00:43:51.300 --> 00:43:59.639

Tico Sandoval: So I I just wanted to bring that up. I don't again. I don't know if that needs to be a discussion we have. It's obviously not some. We're deciding right now. But I just wanted to make sure that that was brought up on the board.

377

00:44:00.195 --> 00:44:22.989

Tico Sandoval: As a discussion topic for a future point. So maybe company. Take note of that as a as a discussion point for a future call. But again, I don't again. I don't know who's in charge of that piece, or

that discussion it might be Cj, or it might be company. And, Lewis, I I don't know. So, anyway, just wanted to make sure that was that was noted from the notes that I got from this week.

378

00:44:22.990 --> 00:44:31.740

Cj: Alright. So, then, that that whole topic is an E board discussion. It is not dictated by one person or another. There's an entire E. Board discussion

379

00:44:31.920 --> 00:44:33.389

Cj: in the past.

380

00:44:33.690 --> 00:44:41.849

Cj: We've kind of put it out to bid. Vendors came in. They spoke their piece on what they had to offer the Club, the E. Board decided who they wanted to go with

381

00:44:42.410 --> 00:44:45.439

Cj: couple of years ago. We decided we're not selling track days.

382

00:44:46.640 --> 00:44:48.140

Cj: So we stopped kind of doing it.

383

00:44:49.356 --> 00:44:51.539

Cj: Mark runs our Nrs

384

00:44:52.080 --> 00:44:58.730

Cj: kind of where we've just been running with the Friday, so there hasn't been a formal process for the last couple of years

385

00:44:58.960 --> 00:45:01.109

Cj: that says, you know.

386

00:45:01.150 --> 00:45:06.079

Cj: this person or that person is gonna run our Friday track day the end of the day. It's a winner event.

387

00:45:09.241 --> 00:45:11.577

Tico Sandoval: Okay, yeah, it's it's gonna have to be

388

00:45:12.020 --> 00:45:15.470

Cj: We're gonna have to have probably a little bit more in depth conversation about

389

00:45:15.710 --> 00:45:27.089

Cj: you know who that day is going to be offered to if we want to go back to the way we did it before, where everybody comes in speaks their piece, and then the board just decides who's gonna be running those those days for us.

390

00:45:29.305 --> 00:45:34.734

Tico Sandoval: Okay, okay, yeah. Just again. Wanted to throw it out there as a discussion point in the future.

391

00:45:35.290 --> 00:45:42.070

Tico Sandoval: okay, banquet time. Lots to talk about for the banquet we've gotten. All the trophies are in

392

00:45:42.200 --> 00:45:44.349

Tico Sandoval: T-shirts for sale are in

393

00:45:44.510 --> 00:45:54.060

Tico Sandoval: the volunteer sponsor and expert racer. Graduates. Novice graduates all those are in

394

00:45:54.360 --> 00:46:00.600

Tico Sandoval: the brochure or the program guide is done printed. You guys can't even see that.

395

00:46:00.600 --> 00:46:01.730

Louis Stevenson: In front of your face.

396

00:46:01.840 --> 00:46:03.010

Louis Stevenson: Put it in front of your face.

397

00:46:03.366 --> 00:46:22.620

Tico Sandoval: It looks absolutely amazing. It's a retro look for the 50th year. It's pretty cool. We'll have these here. They're nice nice print got these at cost. So super excited for that. So all the stuff I have the photo slideshow done? We'll get the documentary ready to go.

398

00:46:22.954 --> 00:46:29.645

Tico Sandoval: And I'll turn it over to turn to talk about any of the logistical details that we might need to know. And

399

00:46:30.410 --> 00:46:31.410

Tico Sandoval: go ahead. Turn.

400

00:46:32.530 --> 00:46:41.469

Turin Cox: Hey? So nothing is really changed since the last time we spoke about it. The schedule is the same. I'll just

401

00:46:41.550 --> 00:46:52.793

Turin Cox: go over it very, very quickly. Basically. We get the space at 3 o'clock 3 pm. 5 pm. Doors open bar opens immediately.

402

00:46:53.290 --> 00:47:03.007

Turin Cox: for the 1st 2 h. Essentially, it's basically mingle. And then at 6, 45 guests will be seated.

403

00:47:03.940 --> 00:47:26.068

Turin Cox: and then short welcome. Let guests know Gsu staff will be releasing tables, and then 7, 15. Once everybody's gone through the buffet. That's when we'll start the award so 30 min to get through

the buffet lines, and then everybody be eating while the the awards start. The awards will go for a little under 2 h with a break in between

404

00:47:26.670 --> 00:47:38.550

Turin Cox: 8 pm. And then 9 pm. It's 9 to 10. We can. You know we have the space again last call at 9, 40 10 Pm. The lights come up, and then from 10 to 11 we clean up.

405

00:47:39.425 --> 00:47:40.070

Turin Cox: So.

406

00:47:40.725 --> 00:47:41.030

Tico Sandoval: What?

407

00:47:41.030 --> 00:47:43.540

Tico Sandoval: Okay? What was the what was the setup time turn? Sorry?

408

00:47:43.770 --> 00:47:47.619

Turin Cox: We've got 2 h, so from 3 to 3 to 5,

409

00:47:48.810 --> 00:47:59.149

Turin Cox: I myself will be there from for the whole thing. I'll be there at 3. So if anybody needs any coordination, let me know if people need ham with whatever they want to bring in, let me know.

410

00:47:59.150 --> 00:48:05.110

Kumpy's iPhone: Question is, what do you need to get set up? And what do we need to set up? And what do you need help with setting up.

411

00:48:05.270 --> 00:48:29.629

Turin Cox: So I don't personally don't have anything to set up. So everything is on site as far as equipment for audio visual. I don't have the the slideshow. I don't know who is producing that. Tico. You have that. So as long as we can do that I will. I mean, I we have the the. I just updated it today, Tico, the outline for the event and for mark

412

00:48:29.630 --> 00:48:38.973

Turin Cox: the list of awards it matches should match the program. That was the whole point of it. The final order of it.

413

00:48:39.648 --> 00:49:03.010

Turin Cox: we probably shouldn't change it at this point. If somebody has a real real thing, just you know, and then I'll give you an extra sheet mark that has rough times next to each one, so that you can, as you're going through it, as you're making decisions as to who to let speak, who not to let speak, how to speed it up how to slow it down. However, you want to do it, but at least you'll have a guideline when you're like.

414

00:49:03.010 --> 00:49:04.030

Damon Poor: I'm an hour and a half.

415

00:49:04.030 --> 00:49:04.450

Turin Cox: I agree.

416

00:49:04.450 --> 00:49:04.860

Damon Poor: Goddamn.

417

00:49:04.860 --> 00:49:08.659

Turin Cox: Taking 30 min, and you're like, Oh, there's another 12 to go

418

00:49:09.350 --> 00:49:15.810

Turin Cox: that sort of stuff, and then if you want, I can also print that out

419

00:49:15.900 --> 00:49:20.649

Turin Cox: big, so that you can have it easy to read when it's probably going to be quite dark where you are.

420

00:49:22.710 --> 00:49:30.829

EmDee35: Have you emailed the new? I just looked at the old one you sent out, and that the last. Have you emailed a new one out, or is it exactly the same?

421

00:49:31.731 --> 00:49:35.449

EmDee35: I don't. I haven't emailed anything out. Tico, have you.

422

00:49:35.450 --> 00:49:41.640

Tico Sandoval: I have not. No, so it has changed a little bit. There's been a 1 one more award at the very end.

423

00:49:42.050 --> 00:49:44.624

Tico Sandoval: or I guess right before the championship which is

424

00:49:45.236 --> 00:50:06.263

Tico Sandoval: Rick. Crashes. 38 years of service award that that has been determined to be given out. It was done by a couple of people who said, Hey, I got an award that I created for Rick. So we decided to add it to the program. So it's in the program. It's just one of the last items that so that that has changed. I don't know if that impacts

425

00:50:06.550 --> 00:50:08.909

Tico Sandoval: Mark's list. So maybe turn.

426

00:50:09.241 --> 00:50:11.560

Turin Cox: I've already added it to Mark's list.

427

00:50:11.560 --> 00:50:11.880

Tico Sandoval: Okay.

428

00:50:11.880 --> 00:50:20.049

Turin Cox: Everything on the under. It's under event schedule in. There is the schedule. Page 2 is the

429

00:50:20.320 --> 00:50:27.140

Turin Cox: is everything on there. But like I said. If you want, I can make it more legible, make it a few pages, so it's easy.

430

00:50:27.140 --> 00:50:34.650

EmDee35: I don't think you need to do that for me. Just so. It's on some sheet of paper. I'll print it out and review it several times. But you have emailed that out, and I have it, or it's not.

431

00:50:34.650 --> 00:50:37.839

Turin Cox: Nope, but I will email it to you. Now, cool after this meeting.

432

00:50:37.840 --> 00:50:55.869

EmDee35: Sure the other. The other question I asked. It sounds like we have a PA system. We have all the stuff. If I put together. Those little clips of audio for each class I talked about possibly doing is, do we have something to play that through? What I need to get someone to play it. Would I need to do that on my own? Or should we just not worry about that?

433

00:50:56.130 --> 00:51:18.110

Tico Sandoval: I'm sorry, Karen. I will have my computer there. It will be connected via audio for this for the movie and the slideshow, there's no real audio other than just spotify that I was gonna use for music. But if you wanted to, if you have it and you want to set it up or email it to me or download it on my computer, or whatever that's gonna be available.

434

00:51:18.110 --> 00:51:23.909

EmDee35: I was, I was thinking, like a Powerpoint might be the easiest. What do you think is easiest that way? I don't have to send you.

435

00:51:23.910 --> 00:51:28.800

Louis Stevenson: So did you. Have you been talking to the media people at at the college.

436

00:51:29.526 --> 00:51:32.789

Tico Sandoval: Turin. Turin has confirmed that there's audio and video available.

437

00:51:32.790 --> 00:51:38.430

Louis Stevenson: Yeah, but no, they're they're they have actual media booth and a media manager that work that's on site while we're there.

438

00:51:38.430 --> 00:51:39.290

Tico Sandoval: Oh, that's there!

439

00:51:39.290 --> 00:51:44.399

Louis Stevenson: They're up above in the booth. If you want something to play, you need to give it to them on USB, stick.

440

00:51:45.110 --> 00:51:46.370

EmDee35: Very cool, cool.

441

00:51:46.660 --> 00:51:57.000

Turin Cox: So I'll have extra USB sticks. Always have it. I'll have my computer as well, and I'm happy to volunteer during the event to help out kind of with the awards, I've

442

00:51:57.160 --> 00:51:59.076

Turin Cox: you know. Give me something to do.

443

00:51:59.770 --> 00:52:07.010

Turin Cox: Cool so but that's that's it. Company! Were you able to confirm with pink stuff if he's bringing a bike.

444

00:52:07.300 --> 00:52:08.507

Kumpy's iPhone: I talked to

445

00:52:09.350 --> 00:52:16.570

Kumpy's iPhone: to Kevin, and he said that his bike is in pieces right now, so he will not be bringing a bike to the banquet. He will be.

446

00:52:16.680 --> 00:52:22.840

Kumpy's iPhone: yeah, but he will be bringing a bunch of awards from the from the Omura banquet.

447

00:52:23.445 --> 00:52:26.919

Kumpy's iPhone: Are are you bringing the awards. You're bringing the awards. No.

448

00:52:27.330 --> 00:52:29.680

Turin Cox: Me. I just have the one that I received for you.

449

00:52:29.680 --> 00:52:34.759

Kumpy's iPhone: Oh, I see, I see. Okay. So I think that Kevin's bringing a bunch of awards. So whoever received the

450

00:52:34.860 --> 00:52:37.839

Kumpy's iPhone: a championship trophy from Omra Hill, heaven!

451

00:52:39.530 --> 00:52:40.220

Kumpy's iPhone: But nobody.

452

00:52:40.220 --> 00:52:41.390

12535928762: I have a question.

453

00:52:43.660 --> 00:52:50.950

12535928762: is there a table available for registration, or do I need to bring them to check people in.

454

00:52:51.690 --> 00:53:00.289

Turin Cox: They'll they'll have all of that there if we need to get a table for it. I can email Patty, to make sure it's it's ready for us, and we'll just set it up. That's that's not a problem.

455

00:53:01.620 --> 00:53:11.839

12535928762: Okay, we're doing the too fast event at the Ridge, and Riley and I are going to leave a little early to be there to check people in on time, but I do have help. Riley's helping me.

456

00:53:13.650 --> 00:53:30.513

Turin Cox: Okay, that should be good. And then on the while we're on on check ins numbers real quick. I put it in the document as well. Tico so where is it? The so the final numbers that we gave to to Green River that they're working on? It's a total

457

00:53:30.820 --> 00:53:38.589

Turin Cox: covers of 115, with 5 vegetarian and 105 for carving

458

00:53:38.590 --> 00:54:02.299

Turin Cox: as of right as of 6, 45 pm, when Danielle provided the information. We've sold 104 tickets, of which 5 are Vegan. So we basically have. As I'm reading this right? We have 9. We have 9 tickets. Sorry 11 tickets left that we could sell. I know online. It's showing that we still have 6 available. But that's just we have that there for overages.

459

00:54:02.770 --> 00:54:25.779

Turin Cox: so we'll be able to sell tickets at the door if we want as well, and then when it comes to the people attending that don't the basically want to get their award, but don't want to eat the conversation that I had with Patty about that is, we can, because it's a seated dinner. We can set up a separate table where they can sit, and then they just won't get asked to go up to the buffet.

460

00:54:27.110 --> 00:54:30.105

Turin Cox: That's kind of how that will that'll work.

461

00:54:30.490 --> 00:54:37.140

Turin Cox: so they can just sit join in. They just won't get up and go to the buffet, but they obviously can go to the bar because it's a cash bar.

462

00:54:37.230 --> 00:54:46.479

Turin Cox: They can hang out and do whatever we don't. Necessarily there will be no charge to us as an organization. What we decide to charge at the door is entirely up to us.

463

00:54:48.150 --> 00:54:51.119

Kumpy's iPhone: Do we have that number? What is that number? If someone shows up.

464

00:54:51.300 --> 00:55:06.990

Turin Cox: Last time I heard there was the last time we talked about it, there was what maybe, said somebody said 5. I don't know who said that that it wasn't a large number of people that showed up in previous years that wanted to just receive their reward, but didn't want to sit for the whole banquet.

465

00:55:07.790 --> 00:55:08.320

12535928762: That was.

466

00:55:08.320 --> 00:55:21.669

12535928762: And I think that was when we were at the other location, and there was a couple of people that just popped in, grabbed their stuff and left like they were just there for the awards part of it. I don't think those few people were charged just because

467

00:55:23.200 --> 00:55:24.990

12535928762: they didn't eat anything.

468

00:55:24.990 --> 00:55:44.740

Tico Sandoval: Yeah, my, my vote personally would be. If you're gonna come and you want to be entered, we should just have the same fee that that everybody else pays in terms of that I think that it's a it's good for the club. It's a cost to us either way. And we, in my opinion, if someone's gonna drive to Green River to go to the things

469

00:55:44.770 --> 00:55:56.599

Tico Sandoval: they're expecting to pay for for it if they just want to run in and grab the trophy, or whatever. I guess we can do whatever we want to do on that that front. But I think if someone's gonna come and and stay, I don't think we just charge less for

470

00:55:56.989 --> 00:56:02.640

Tico Sandoval: for coming in. That's my opinion, because then it just devalues. I think the entire event for everybody else who's paid.

471

00:56:03.310 --> 00:56:05.530

Kumpy's iPhone: I think initially, we had talked about like

472

00:56:05.560 --> 00:56:20.325

Kumpy's iPhone: we had thrown around like 20 bucks or something, if they wanted to attend like, attend the whole thing if they want to just come in and grab their trophy and then leave. That's that's okay, too. And you know, we don't really have to really enforce any of any of this stuff we can just

473

00:56:20.850 --> 00:56:26.869

Kumpy's iPhone: maybe just say 20 bucks if you want to come in and hang out and not have dinner, and if they want to do so, they can do so. And

474

00:56:27.060 --> 00:56:30.090

Kumpy's iPhone: you know we're not. Gonna no, no, we're not twisting anyone's office.

475

00:56:30.090 --> 00:56:31.470

Tico Sandoval: Turn anybody away. I guess that's the.

476

00:56:31.470 --> 00:56:38.319

Louis Stevenson: I wouldn't advertise it. I would just say, if somebody happens to show up and they're they're just there to be there not to eat, I'd say 20 bucks.

477

00:56:39.510 --> 00:56:52.629

12535928762: There are a few people that are waiting on their work. Schedules like Gavin will not know until the day of if he's going to be able to come, but he does know he has to pay full price at the door. It's just a couple of people know that, you know.

478

00:56:53.190 --> 00:56:56.450

12535928762: It's there if they need to come in late. But

479

00:56:56.600 --> 00:57:01.020

12535928762: yeah, they will. They will be paying if they are coming to stay for the whole day.

480

00:57:03.020 --> 00:57:09.246

Kumpy's iPhone: Okay. Alright, that sounds good. I don't know. Do we need to vote on that, or do you? Wanna just no.

481

00:57:10.530 --> 00:57:27.120

Turin Cox: I think everybody's on the page, the the I don't think many, many people are gonna show up. We have the space to sell tickets to go for overage anyway. So the handful of people that potentially might show up, we can sell tickets. No problem. And we've got we've got covers for it as well, so.

482

00:57:27.120 --> 00:57:33.190

Kumpy's iPhone: Who, when when someone shows up, who is the 1st person they're going to come across, is it Danielle?

483

00:57:35.120 --> 00:57:36.800

12535928762: And Riley will be helping.

484

00:57:37.250 --> 00:57:39.720

Kumpy's iPhone: Okay. Alright, then.

485

00:57:39.720 --> 00:57:42.709

Turin Cox: Table up outside the doors so you can greet the married outside.

486

00:57:43.630 --> 00:57:45.719

Damon Poor: In the cold, in the cold. Yeah, in the rain.

487

00:57:46.640 --> 00:57:47.079

Damon Poor: There we go.

488

00:57:48.980 --> 00:57:50.439

Louis Stevenson: That's a shitty volunteer job.

489

00:57:51.075 --> 00:57:58.640

Turin Cox: There last year. Emily had the table that was inside the doors, and just everybody kind of just stopped there as they checked in.

490

00:57:58.640 --> 00:58:02.770

Turin Cox: Yeah, yeah, no, we'll. We'll. There's no reason to change anything from last year. So.

491

00:58:03.440 --> 00:58:22.269

Kumpy's iPhone: Okay, so we'll we'll agree upon that. It's it's up to Danielle. It's up to your discretion, you know, in regards to someone wants to come in. They don't want to pay for dinner. They're gonna stay the whole time. We can charge them bucks, 20 bucks if they don't. You know what I mean. If they're just coming, grab their trophy, let them in. It's no big deal whatever, and then we'll, you know. So that's up to your discretion when they show up.

492

00:58:23.440 --> 00:58:24.100

12535928762: Okay.

493

00:58:24.833 --> 00:58:27.449

Kumpy's iPhone: Okay. Cool. Darren. What else you got.

494

00:58:27.767 --> 00:58:41.110

Turin Cox: That's that's it, really the event pretty much, you know, handled itself. There wasn't a a huge amount to coordinate. Patty's been great. Everything seems, you know, pretty decent. I don't think you have to stress too much about it.

495

00:58:41.110 --> 00:58:43.510

Kumpy's iPhone: Does Patty need a check for the

496

00:58:43.560 --> 00:58:45.060

Kumpy's iPhone: for the final event? Do we.

497

00:58:45.490 --> 00:58:53.029

Turin Cox: When we're done she'll just at the end of the event, you know. They'll give us an invoice, and we pay the invoice, whatever the terms are.

498

00:58:53.450 --> 00:58:56.639

Kumpy's iPhone: Okay, then I'll touch base with Neil Neil for that.

499

00:58:56.760 --> 00:59:00.130

Kumpy's iPhone: Yeah, okay. Sounds good.

500

00:59:00.130 --> 00:59:08.220

Turin Cox: And that's it. I just have a couple of questions. What time should I expect? Nico, what time should I expect you. And Mark, what time are you thinking of getting there?

501

00:59:08.520 --> 00:59:11.630

Tico Sandoval: Oh, I'll I'll be there by 3 30.

502

00:59:11.660 --> 00:59:16.659

Tico Sandoval: most likely, maybe a little earlier than that. But I'll be there around around 3 30 is my guess. With traffic.

503

00:59:17.000 --> 00:59:17.710

Turin Cox: Okay.

504

00:59:18.030 --> 00:59:26.040

EmDee35: I have my Christmas party at the Ridge for too fast from one to 4, so if I get out at 4, I imagine I'll be there between 5 and 5, 30.

505

00:59:26.670 --> 00:59:32.520

Turin Cox: Okay sounds great. That sounds great. Alright. We'll try to get everything set up and tested so that all happens before

506

00:59:32.620 --> 00:59:37.890

Turin Cox: you're there and all that, and then you over the information.

507

00:59:38.300 --> 00:59:42.199

Kumpy's iPhone: Do we have a Wimra banner, or something that we have that we can display.

508

00:59:42.370 --> 00:59:52.679

Tico Sandoval: That's a great question. Company. So I have not been able to get in touch and connected with Doug. I asked Brian to see if he could help me get those banners that he says he has.

509

00:59:53.273 --> 01:00:10.476

Tico Sandoval: I do have the old 19 nineties era banner from Walmart that I am bringing, so at least it looks a little retro that will be displaying, at least on that level. But I don't have the the Walmar banners at all. Unfortunately,

510

01:00:10.850 --> 01:00:11.280

12535928762: I can.

511

01:00:11.280 --> 01:00:11.760

Tico Sandoval: So.

512

01:00:11.760 --> 01:00:13.170

12535928762: Print something.

513

01:00:14.070 --> 01:00:14.440

Cj: So.

514

01:00:14.440 --> 01:00:14.980

Tico Sandoval: What's that?

515

01:00:14.980 --> 01:00:20.099

Chris Wilcox: We had some flags. I'm not sure if Colt still has them, or if they're in a registration trailer.

516

01:00:20.390 --> 01:00:22.070

12535928762: One of them was broken.

517

01:00:23.120 --> 01:00:31.290

12535928762: Yeah, one of those is broken. I can. I have a plotter? So somebody needs something big printed. I can print up to 36 inches wide.

518

01:00:32.010 --> 01:00:47.179

Tico Sandoval: Oh, okay, well, I'm I'm still hopeful that I can get a get connected with Brian and Doug and see if I can get whatever they've got. Like I said. The old banner, the web, the you know, the the screen will have warmer rolling, so

519

01:00:47.280 --> 01:00:50.830

Tico Sandoval: at least we'll have the warmer represented at some level.

520

01:00:51.850 --> 01:00:54.754

Kumpy's iPhone: Okay, bring what you got, banner wise.

521

01:00:55.920 --> 01:01:00.410

Kumpy's iPhone: Okay, do we have any other discussions about the banner? The banquet.

522

01:01:01.310 --> 01:01:02.270

Turin Cox: I have nothing.

523

01:01:03.060 --> 01:01:05.860

Kumpy's iPhone: Okay. Does anyone else have any questions about the bank withdrawal.

524

01:01:07.840 --> 01:01:09.450

Turin Cox: Oh, I do have one question.

525

01:01:09.670 --> 01:01:10.389

Kumpy's iPhone: Go for it.

526

01:01:11.153 --> 01:01:15.190

Turin Cox: Lewis, you gonna be walking around taking photos of everybody.

527

01:01:15.190 --> 01:01:18.769

Louis Stevenson: I can't. It can't carry my camera yet. That'd be one handed.

528

01:01:19.100 --> 01:01:22.160

Damon Poor: I will be there taking amateur photos.

529

01:01:22.600 --> 01:01:24.619

Louis Stevenson: I can take photos with my phone.

530

01:01:25.270 --> 01:01:25.780

Turin Cox: Okay?

531

01:01:25.780 --> 01:01:29.360

Turin Cox: I mean, I can. I can. I can take some photos as well

532

01:01:29.820 --> 01:01:34.360

Turin Cox: again as as Damon will be competing for best amateur.

533

01:01:34.650 --> 01:01:36.159

Louis Stevenson: Oh, yeah, I still have.

534

01:01:36.160 --> 01:01:39.349

Turin Cox: It won't be much of a competition, David.

535

01:01:39.350 --> 01:01:41.070

Damon Poor: You're goddamn right. It won't be.

536

01:01:43.200 --> 01:01:43.870

Cj: Yes.

537

01:01:44.120 --> 01:01:46.940

Kumpy's iPhone: Okay, moving on to Lewis. What do you got going on.

538

01:01:47.477 --> 01:01:52.619

Louis Stevenson: One quick question, does anybody either? The rule book has an In Memoriam section.

539

01:01:53.020 --> 01:02:00.750

Louis Stevenson: and that's for anybody that's part of our Worm family that may have passed away last year. Does anybody remember anybody doing that last year.

540

01:02:02.290 --> 01:02:12.239

12535928762: I saw your email, and I don't think there were any new additions from last year that were like actual women numbers or a track accident, or something like that from my memory.

541

01:02:12.500 --> 01:02:13.100

Damon Poor: That's great!

542

01:02:13.300 --> 01:02:17.320

Louis Stevenson: Track accident would be a whole nother thing. But yeah, yeah, okay.

543

01:02:17.610 --> 01:02:19.739

Louis Stevenson: So that that section's blank this year.

544

01:02:20.910 --> 01:02:35.449

Louis Stevenson: the other thing is, I would like to bring bring up a subject that Chris and me have been discussing about our our board disc communications. So the emails are kind of hard to follow sometimes

545

01:02:36.300 --> 01:02:38.950

Louis Stevenson: who here is familiar with discord.

546

01:02:38.950 --> 01:02:39.590

Damon Poor: Yep.

547

01:02:40.300 --> 01:02:41.892

Louis Stevenson: Yeah, you, got okay?

548

01:02:42.780 --> 01:02:43.640

Louis Stevenson: We.

549

01:02:44.170 --> 01:02:44.610

12535928762: Holidays.

550

01:02:45.720 --> 01:02:48.290

Louis Stevenson: We have unofficially started a

551

01:02:48.340 --> 01:03:15.279

Louis Stevenson: a discord server for the Worm Board. We maybe expand that into the future for club members. But right now we have private sections for the board members, and this would also allow us to do video so that if Tico wasn't around he wouldn't have to host it because it's free to do it on there. The for the people are unfamiliar with discord. It's basically like having our own little private forum.

552

01:03:15.782 --> 01:03:43.280

Louis Stevenson: We can start a forum topic, and then we can just pop in and discuss it as needed. And we can also vote in there with official polls and all that stuff makes it really easy to track stuff. And you don't know if somebody happened to miss an email, or if they just replied to one person instead of replying, all it just kind of organizes everything really, simply, and they can do. You can access it through the web or through an app. And it's super simple, really. So.

553

01:03:43.690 --> 01:03:45.720

Damon Poor: I'm for it. I love it. I like it.

554

01:03:46.600 --> 01:03:51.400

Louis Stevenson: Would like to soft launch it right away. Basically start sending invites all you guys.

555

01:03:51.410 --> 01:03:54.229

Louis Stevenson: And you guys can feel it out so.

556

01:03:57.582 --> 01:03:59.909

Tico Sandoval: I'm good for it.

557

01:03:59.910 --> 01:04:01.879

Kumpy's iPhone: You said. There's no cost to it.

558

01:04:02.160 --> 01:04:02.710

Louis Stevenson: Nope.

559

01:04:03.680 --> 01:04:05.850

Kumpy's iPhone: Okay, then send it out. Let's give it a whirl.

560

01:04:06.340 --> 01:04:06.890

Louis Stevenson: Okay.

561

01:04:08.870 --> 01:04:09.380

Kumpy's iPhone: You got anything.

562

01:04:09.380 --> 01:04:10.800

Louis Stevenson: I'm done that, is it.

563

01:04:11.420 --> 01:04:14.449

Kumpy's iPhone: All right, saving the best for last, Don, what do you got over there?

564

01:04:15.120 --> 01:04:18.501

Don: Yeah, so kind of along the same lines of communication.

565

01:04:18.900 --> 01:04:37.089

Don: fielded a whole bunch of calls this week and emails this week about, hey, where are the results from last year posted? And hey where? Where are the rules at? And you know, just just generic stuff that should be on the website, like, when's the last time? The minutes were updated on the on the website? And the answer is like 2022.

566

01:04:37.110 --> 01:04:37.830

Don: So

567

01:04:38.990 --> 01:04:47.559

Don: maybe if we could put a little bit of effort into making sure our members are getting the communication they need. I mean, it's great that we're we're all talking about stuff internal to the board.

568

01:04:47.770 --> 01:04:50.030

Don: but I think the the

569

01:04:50.370 --> 01:05:03.260

Don: bigger the bigger picture needs to be addressed a little bit, and I know Tico's probably got some of that for action. But we we gotta we we gotta start lighting a fire under the butts of the people that are responsible for, you know, tracking these meeting minutes and getting those posted.

570

01:05:03.420 --> 01:05:08.269

Don: A simple link to the results would be great, because then people could go. Oh, hey! There's where I'm at.

571

01:05:08.290 --> 01:05:11.950

Don: I don't know. The outdated posted.

572

01:05:11.970 --> 01:05:13.470

Cj: That's what they want.

573

01:05:14.820 --> 01:05:18.150

Don: Other than that. That's that's like, I just a simple request to try to

574

01:05:18.230 --> 01:05:20.910

Don: get membership communication up a little bit.

575

01:05:21.310 --> 01:05:23.230

Louis Stevenson: What was that? Cj. It stuttered.

576

01:05:25.970 --> 01:05:31.179

Cj: So the results have been posted forever. They've been on speed, for I don't know since the end of the season.

577

01:05:31.430 --> 01:05:37.930

Don: For sure, if you know, to go look at speed high. But there should be something on the website where people would expect it to be. Not

578

01:05:37.970 --> 01:05:44.180

Don: I randomly have to go to speed. Hive, look up! I'm gonna go try to find it, track it down, look through 3 spread spreadsheets to get to it.

579

01:05:44.180 --> 01:05:44.720

Cj: Oh!

580

01:05:44.720 --> 01:05:48.160

Don: Pretty simple to have a a link, I would imagine.

581

01:05:49.540 --> 01:06:13.720

Tico Sandoval: That's a really good point, John. I it was actually on my list that I didn't bring up because I didn't want to run over time. But I think that you know, there's things that the things that do we need to post. I think championship points should be. I have a summary of that information. And then, obviously, that's another thing that was concerning me. I think that's Mallory's role right in regards to getting those updated.

582

01:06:14.135 --> 01:06:32.709

Tico Sandoval: So you know, if I can probably take what we did for the zoom call the you know the documentation, do it. I I just don't have time to actually edit that in any way, shape or form. So it's gonna look pretty jarbled. But I think it's a really good point.

583

01:06:33.740 --> 01:06:38.849

Don: Okay, yeah. And that's kind of the elephant, because, you know, I know mal busy. She's got her things going on, but

584

01:06:39.390 --> 01:06:41.256

Don: you know where she at.

585

01:06:42.340 --> 01:06:44.439

Louis Stevenson: Raw data would be better than no data.

586

01:06:44.740 --> 01:06:45.500

Don: True.

587

01:06:48.560 --> 01:06:52.648

Kumpy's iPhone: Okay, cool. Well, thanks, Don. Thanks for your your input

588

01:06:53.440 --> 01:06:58.110

Kumpy's iPhone: Does anyone else have any thing that they want to add to the meeting?

589

01:06:59.900 --> 01:07:01.369

12535928762: I forgot one thing

590

01:07:01.430 --> 01:07:09.280

12535928762: and a question. I don't know if somebody can pull up Emily's email from last year. I think you guys did a like

591

01:07:10.090 --> 01:07:19.420

12535928762: 10% discount or something on 1st race round if they registered by like the registration date. Are we wanting to do anything like that

592

01:07:20.660 --> 01:07:26.930

12535928762: this year, or just regular registration.

593

01:07:27.350 --> 01:07:28.480

Cj: You got anything on that?

594

01:07:29.436 --> 01:07:30.229

Cj: Hang on.

595

01:07:31.920 --> 01:07:38.005

Don: We did it last year as a way to generate revenue because we were hurting. But this year we're not really hurting so.

596

01:07:38.990 --> 01:07:42.370

12535928762: Okay, I'd say.

597

01:07:42.850 --> 01:07:47.859

Cj: It's something that we've done for several years. There's always been some kind of

598

01:07:47.960 --> 01:07:52.749

Cj: benefit to registering at the banquet before the next season. I just don't remember what the numbers are.

599

01:07:54.010 --> 01:07:55.069

Tico Sandoval: I think 10%

600

01:07:55.382 --> 01:08:03.807

Tico Sandoval: in regards to the incentive to register at the banquet. I guess the downside is people who don't go to the banquet. Don't get that benefit.

601

01:08:04.990 --> 01:08:06.400

Tico Sandoval: but that's their loss, anyway.

602

01:08:06.400 --> 01:08:07.440

12535928762: This is true, though.

603

01:08:08.550 --> 01:08:09.329

Kumpy's iPhone: What do they register?

604

01:08:09.330 --> 01:08:16.020

12535928762: Register within the next week. You get, you know, \$20 off your 1st race registration or whatever

605

01:08:16.149 --> 01:08:17.199

12535928762: I mean.

606

01:08:19.210 --> 01:08:22.100

12535928762: The email still goes out to all the same people, correct.

607

01:08:22.800 --> 01:08:30.789

Kumpy's iPhone: Yeah. So you know what, Danielle? Let's let's put that out there and then, as well as a kind of like a last minute reminder of the banquet.

608

01:08:30.910 --> 01:08:38.689

Kumpy's iPhone: 50th anniversary banquet, and then also reminder that you know, licensing that you can do licensing, and

609

01:08:38.880 --> 01:08:44.700

Kumpy's iPhone: what race number renewals at the banquet as well as maybe a 20%. So it gives them

610

01:08:44.920 --> 01:08:50.289

Kumpy's iPhone: kind of bundle it all in. And it's a nice incentive. We've had it for the years over the past years.

611

01:08:50.330 --> 01:08:52.160

Kumpy's iPhone: and we should offer it up. I think.

612

01:08:52.160 --> 01:08:52.840

12535928762: Okay.

613

01:08:53.830 --> 01:08:58.679

12535928762: so 15%, 20% 1st race round. Or do we just want to do like a flat rate.

614

01:08:59.422 --> 01:08:59.969

Kumpy's iPhone: What did we.

615

01:08:59.970 --> 01:09:08.380

Cj: I think we need a little bit more data before we say one way or the other. We gotta find the data, because I don't know that there was a set percentage, but there was incentive. I just don't remember what the number was.

616

01:09:09.710 --> 01:09:17.878

12535928762: Okay, I'll dig through the emails, and before I make it live I'll send out an email with that question in it and figure out what it was.

617

01:09:18.370 --> 01:09:21.009

Kumpy's iPhone: Okay, yeah, we'll put it in Lewis's

618

01:09:21.950 --> 01:09:27.589

Kumpy's iPhone: new little. Yeah, that's it. There you go. We'll put it in that thing and and see how that plays out. But

619

01:09:27.779 --> 01:09:30.070

Kumpy's iPhone: yeah, that sounds good. Let's let's go to that.

620

01:09:30.709 --> 01:09:40.049

Kumpy's iPhone: I have an update. Also, I got contacted again in regards to potentially having some air fences being donated to us. I think

621

01:09:40.069 --> 01:09:49.430

Kumpy's iPhone: they went. They went from Fontana that closed down, and then it went to Texas somewhere. I think there are 5 of them left

622

01:09:50.242 --> 01:09:54.237

Kumpy's iPhone: we might be able to get 2, maybe 3. So I contacted

623

01:09:55.010 --> 01:10:00.809

Kumpy's iPhone: I contacted Chris Lafayette, and so he'll let me know how many we need. But I don't know.

624

01:10:00.810 --> 01:10:01.190

Kumpy's iPhone: They stop.

625

01:10:01.190 --> 01:10:01.590

Kumpy's iPhone: I'm making.

626

01:10:01.590 --> 01:10:02.600

Damon Poor: Of them, correct.

627

01:10:03.116 --> 01:10:05.609

Kumpy's iPhone: No, no! They still make air fences.

628

01:10:05.610 --> 01:10:06.690

Cj: We need all of it.

629

01:10:07.890 --> 01:10:08.420

Damon Poor: Huh!

630

01:10:08.790 --> 01:10:17.950

Kumpy's iPhone: And we, yeah, yeah, we have to find out. If you know the Ridge and Pacific can actually, you know, help allow us to store them over there. You know, we're talking big containers

631

01:10:18.390 --> 01:10:22.440

Kumpy's iPhone: so containers full, and there's like a bunch in each container.

632

01:10:22.440 --> 01:10:29.349

Cj: Cause you need to clarify on what we're trying to get that you say 3. Are you talking? 3 people? Are you talking 3 containers.

633

01:10:29.350 --> 01:10:32.019

Kumpy's iPhone: 3 containers full of air fences.

634

01:10:32.020 --> 01:10:34.550

Kumpy's iPhone: I missed the container piece.

635

01:10:35.448 --> 01:10:38.379

Kumpy's iPhone: Yeah, continue. Not like 3 little

636

01:10:38.380 --> 01:10:40.970

Kumpy's iPhone: like, why are we chasing 3 blocks of the airplane?

637

01:10:41.280 --> 01:10:42.050

Damon Poor: We need them all.

638

01:10:42.050 --> 01:10:43.839

Damon Poor: I exactly.

639

01:10:44.070 --> 01:10:45.270

Kumpy's iPhone: So.

640

01:10:46.030 --> 01:10:47.470

Tico Sandoval: That would be awesome.

641

01:10:47.640 --> 01:10:53.450

Kumpy's iPhone: Yeah, yeah, we'll just try to get more air fences but just still working on that, you know.  
And so

642

01:10:53.490 --> 01:11:05.050

Kumpy's iPhone: some of that will come from the budget. If anything, if any fees are incurred with it, that would be for shipping, and they might want reimbursement for the container itself, not for the air fences.

643

01:11:05.300 --> 01:11:06.050

Kumpy's iPhone: and so.

644

01:11:06.050 --> 01:11:12.109

Cj: Containers. That's yeah. You buy those all day long for a couple of grand a piece. They're not a big deal.

645

01:11:12.480 --> 01:11:14.450

Kumpy's iPhone: Exactly so.

646

01:11:15.340 --> 01:11:23.734

Kumpy's iPhone: But if there's anything else, I guess we can conclude our our meeting, because I think we've kind of gone through everything. Everyone.

647

01:11:24.070 --> 01:11:39.710

Tico Sandoval: One quick question. I've been thinking about this. Is there any interest in us connecting with Spokane for their racetrack? And maybe anybody interested in coming with me this year to go kind of walk through the track and see what the setup looks like. I would love to have a 3rd track in Washington.

648

01:11:39.880 --> 01:11:43.239

Tico Sandoval: and you know, I think, that they're interested potentially in in.

649

01:11:43.240 --> 01:11:47.869

Damon Poor: Last I heard about that there was some drama with the

650

01:11:48.290 --> 01:11:48.710

Cj: 50.

651

01:11:48.710 --> 01:12:04.259

Damon Poor: It's the representative. That colt was talking about. I believe it was a member of the Indian tribe that has that owns that land. I'm interested in it. But I don't know what was developed. Post the colt little talk about last time we talked about it.

652

01:12:04.260 --> 01:12:04.640

Cj: Very good.

653

01:12:04.640 --> 01:12:06.989

Kumpy's iPhone: Mark you, wanna you wanna chime in on that mark.

654

01:12:07.160 --> 01:12:23.680

EmDee35: I don't have a much information. I just read Chris's note that Craig's probably the most up to speed on that. When I was there 2 years ago. I was interested in putting track days on there, working with Colt, and I think Rj. Was my contact. And that's the guy you're talking about. He was kind of in charge of the drags and stuff, and

655

01:12:24.450 --> 01:12:38.829

EmDee35: I haven't known much I would be interested to go with with you, Tico over there, because it would be a joint interest in my as well. So if we can get a contact, it's good to always get information. But I think, like Chris said, that Craig is up to speed on that more than I am.

656

01:12:38.830 --> 01:12:45.689

Tico Sandoval: Okay, yeah, I was, I was thinking about it. I know that you know the the track. We didn't. We stopped going there for the safety issues. But

657

01:12:46.550 --> 01:12:56.219

Tico Sandoval: I don't. I don't. Other than drag races. I don't think they're really using the rest of the track for much of anything, and I think that, you know, if we were able to pitch them, an idea of coming back.

658

01:12:56.270 --> 01:13:00.690

Tico Sandoval: and they fixed the issues that were potentially a safety concern

659

01:13:01.040 --> 01:13:10.490

Tico Sandoval: might be an option. I've heard nothing but good things about the track before we we before they change the layout. So yeah, I don't know anything on more than that. I just think it's a really cool idea, and I'd love to.

660

01:13:10.490 --> 01:13:35.020

EmDee35: Shirt of turn to lapping. Who is a car club. He does days there. We will do a session of cars and a session of bike, and I've talked to Tom a few times, and he's actually tried to rope me in because he's he can't get enough bike guys out. And he's a car guy. He does no bikes. He just does it because it helps offset the expense for his days. But again, just I've talked to a few people, and I don't have enough details of them. They like it, but it's not great, it's not perfect.

661

01:13:35.020 --> 01:13:41.259

EmDee35: I've walked the track 2 years ago. It wasn't in bad shape. They actually made some improvements when we raced there a decade or so. It would be interesting.

662

01:13:42.170 --> 01:13:48.351

Kumpy's iPhone: Yeah, I went. I went there 2 years ago. I did a track day with Tom Pritchard to turn 2 lapping, and

663

01:13:48.820 --> 01:14:00.430

Kumpy's iPhone: and the track was a little crazy. It was very bumpy, had blind turns. I had like a tar snake right on the on the race line, and and I was like greasing on it.

664

01:14:00.833 --> 01:14:10.439

Kumpy's iPhone: It's pretty scary I would definitely be into racing it on a little bike, only it's a really long, straightaway you get a lot of speed

665

01:14:11.075 --> 01:14:16.240

Kumpy's iPhone: I think in its current configuration. I don't know if they're they're they're.

666

01:14:16.240 --> 01:14:44.650

EmDee35: Duration, the straightaway is taken out of it. I used to love that place, Eli, if you guys remember Eli Edwards Lannigan built him a nos bike. He broke 200 there 15 years ago lasted 4 laps and blew up. But we can't run that straightaway, because there's too many dangers with the building they put there. So they built a they as it comes off a turn. 8. It has an early turn for turn. 9 comes back to the infield the straightaway is nowhere near as long. It's probably the shortest. Straightaway we'd race. It's even shorter than the ridge, so.

667

01:14:45.100 --> 01:14:46.650

Damon Poor: Interesting

668

01:14:46.650 --> 01:14:57.760

Damon Poor: addition on that from the novice side. I have at least 2 novices that were participating last year from Idaho that raced at Spokane and are like, why is this not in the Wimmer program? And I'm like.

669

01:14:58.100 --> 01:15:04.399

Damon Poor: can't really tell you. But there's at least enough interest in Wimra that people are driving from Idaho to Shelton.

670

01:15:04.550 --> 01:15:10.599

Damon Poor: So if we were to add a track there, we might also see some more people join in from the Idaho side.

671

01:15:11.250 --> 01:15:32.539

EmDee35: And I know beating a dead horse here, but that is one of the reasons that we did so well back in the 2 thousands and 2,010, because we would draw people from Montana, Idaho, and Northern Utah to come up there, because it was one of the few tracks in the Inland Empire they could race at, and it draws a lot. And then once you start getting to come Spokane, now they're investing the points. Now they'll come over the ridge.

672

01:15:32.540 --> 01:15:45.009

EmDee35: Come over to do stuff at Seattle. You know. It's not the reason. The only reason to do it. It's just another side benefit that it's worth investigating, even if the track itself isn't that great? You draw a lot more people which then grows the club.

673

01:15:45.700 --> 01:15:56.340

Tico Sandoval: Yeah, I think it'd be worth checking out, at least, and maybe saying what I mean. If we have enough of a push. We could probably get them to do anything if we have enough commitment to them, you know, like

674

01:15:56.450 --> 01:16:03.019

Tico Sandoval: 3 rounds a year or 4. I don't. I don't know what that would look like, but anyway, just a thought. I wanted to throw it out there.

675

01:16:03.260 --> 01:16:10.614

Kumpy's iPhone: Yeah, Tico, let's start looking into it. Let's let's start looking to it. And you know we'll we'll maybe have something prepared for the next meeting, and maybe we can

676

01:16:10.860 --> 01:16:13.050

Damon Poor: Put me on the list of people that want to go.

677

01:16:14.120 --> 01:16:16.490

Kumpy's iPhone: Yeah, maybe we can start making some contacts over there.

678

01:16:16.960 --> 01:16:28.826

Tico Sandoval: We can even do a survey to the, to the masses. And say, would you guys be willing to drive to Spokane for around and just see what the the pulses of the of the group, you know. I hate to throw it out there and then no one wants to go

679

01:16:29.300 --> 01:16:30.360

Tico Sandoval: that would suck.

680

01:16:31.760 --> 01:16:36.580

Kumpy's iPhone: Yeah, I think people would. I mean historically, people has right? So we used to race there so

681

01:16:36.760 --> 01:16:41.179

Kumpy's iPhone: long time ago. But alright, does anyone else have anything to add.

682

01:16:41.180 --> 01:16:44.780

Chris Wilcox: And doing track days. Then.

683

01:16:47.100 --> 01:16:47.449

Kumpy's iPhone: Like Chris.

684

01:16:47.450 --> 01:16:50.249

Chris Wilcox: Can you all hear this working? Okay.

685

01:16:50.430 --> 01:16:56.510

Chris Wilcox: it's it's cool. Damon. Do you? Could you talk to one of those novices and see if they have footage of them at a track day.

686

01:16:56.906 --> 01:17:00.609

Damon Poor: Yeah, I could send you something within the next 5 min. Give me a minute.

687

01:17:00.930 --> 01:17:04.449

Chris Wilcox: The only the only reason I ask is like, the 1st thing I imagine happening

688

01:17:04.752 --> 01:17:08.960

Chris Wilcox: is this being like one Pacific? Put the barriers in where it turns into a craps.

689

01:17:08.960 --> 01:17:11.629

Damon Poor: Oh, yeah, it's gonna be a lot of drama for sure. People.

690

01:17:11.630 --> 01:17:13.410

Chris Wilcox: Oh, my God! The track remains.

691

01:17:13.410 --> 01:17:19.039

Damon Poor: We have this other track that sucks. We shouldn't race there. It's not the Ridge. It's not a motor America track. Oh, my God!

692

01:17:19.040 --> 01:17:25.699

Chris Wilcox: Yeah. Yeah. So if we just had a video, so people wouldn't, you know, doom doom spiral about it, and just be like, here's footage of on the track, like.

693

01:17:25.940 --> 01:17:27.679

Chris Wilcox: you know, it's like, anyway.

694

01:17:27.680 --> 01:17:50.549

Tico Sandoval: I was watching a documentary that you know we're going to show at the banquet for people who want to stick around, and it shows the Spokane track, and it literally looks like you're racing in like on like, just some some random farmers like Field. It's it's pretty comical, but everyone that races that they had a great time. It was like one of the best tracks that they experience racing now again. That's.

695

01:17:50.550 --> 01:17:55.159

EmDee35: It's a fun freaking track man, I'm telling you. We need to get it back on there somehow.

696

01:17:55.670 --> 01:17:57.719

EmDee35: Alright, beating the dead throat.

697

01:17:58.090 --> 01:17:58.870

Tico Sandoval: It's a good.

698

01:17:58.870 --> 01:18:06.420

Kumpy's iPhone: How about you? It's it's the the weather is nice over there. We catch it, you know. I mean, you're not gonna get rain there, so don't bring rain tires.

699

01:18:06.640 --> 01:18:11.470

Tico Sandoval: Well, I mean, think about having like an early March round, and then maybe even finally

700

01:18:12.090 --> 01:18:14.340

Tico Sandoval: a fall round. I mean, it'd be chilly, but it won't be.

701

01:18:14.340 --> 01:18:27.630

Louis Stevenson: You get. You get frost over there, even though it's not wet. It will be cold and icy in the morning. It may just be icy flat out. Icy. So I don't. Yeah, you're not gonna do a march round over there. But I mean you could do April probably.

702

01:18:28.660 --> 01:18:30.550

Tico Sandoval: Alright. Well, yeah, I don't know what I'm talking about.

703

01:18:30.550 --> 01:18:32.059

Kumpy's iPhone: And it won't be a waiting room.

704

01:18:32.060 --> 01:18:36.299

Cj: April ain't gonna happen there, either. I grew up that area that ain't gonna happen in April.

705

01:18:36.510 --> 01:18:38.169

Tico Sandoval: Not in April. Okay? All right. Forget what I.

706

01:18:39.005 --> 01:18:39.490

Cj: Yeah.

707

01:18:39.490 --> 01:18:39.940

Cj: It's still.

708

01:18:39.940 --> 01:18:40.969

Louis Stevenson: Called in it.

709

01:18:40.970 --> 01:18:42.580

Cj: That's a summer track, that's all I'm saying.

710

01:18:42.990 --> 01:18:43.810

Louis Stevenson: Yeah.

711

01:18:44.600 --> 01:18:47.430

Tico Sandoval: Okay? Well, 1, 1 or 2 more rounds would be awesome.

712

01:18:49.150 --> 01:18:53.829

Kumpy's iPhone: Alright. Well, awesome, awesome everyone. I appreciate everyone from chiming in for this

713

01:18:53.880 --> 01:19:08.790

Kumpy's iPhone: this time of the evening. It's getting dark early, and it's just it's getting kind of an effort to to get on to do anything in the evening these days. So appreciate everyone coming out. And we'll see you guys this weekend on Saturday?

714

01:19:09.116 --> 01:19:14.089

Kumpy's iPhone: If you can come early to help volunteer and set up help turn set up. That'd be cool

715

01:19:14.538 --> 01:19:20.649

Kumpy's iPhone: and also I'll catch you guys on the next meeting, which will be, well, let's look at that.

716

01:19:22.550 --> 01:19:28.700

Kumpy's iPhone: Is it gonna be January? Because yeah. January, we're in December the 8, th

717

01:19:28.860 --> 01:19:33.999

Kumpy's iPhone: January 8, th tentatively. January 8, th 7 Pm. Wednesday.

718

01:19:34.650 --> 01:19:43.809

Turin Cox: I just had a I just had a thought I should probably reach out to Patty about parking and see if I can get a parking map and get that to Danielle to send out via email to everybody.

719

01:19:44.470 --> 01:19:51.009

Tico Sandoval: Yeah. The the venue is like in the middle of the school. There's a parking lot right there. Next to it. It's pretty.

720

01:19:51.350 --> 01:19:55.839

Turin Cox: Outside. It's all Ada parking the one that's right next to it. They just. I don't know if that.

721

01:19:55.840 --> 01:19:58.900

Louis Stevenson: They had signs for where we were to go last year, so.

722

01:19:59.230 --> 01:20:03.810

Turin Cox: Oh, okay, okay, I'll confirm with her. I just had a thought of that right then. Sorry.

723

01:20:03.810 --> 01:20:08.689

Kumpy's iPhone: We should, we should put up little signs outside. You know how they go to open house or something, and.

724

01:20:08.690 --> 01:20:09.520

Louis Stevenson: They did.

725

01:20:09.680 --> 01:20:10.310

Kumpy's iPhone: Oh!

726

01:20:10.570 --> 01:20:14.409

Louis Stevenson: College did is to make sure that we didn't take up spots. We weren't supposed to, so.

727

01:20:14.410 --> 01:20:14.859

Damon Poor: Then real quick.

728

01:20:14.860 --> 01:20:17.940

Louis Stevenson: They also have a concert hall there, so they have to.

729

01:20:18.890 --> 01:20:24.329

Louis Stevenson: They have to bring. They have to bring. They actually had a concert the same time we were there last year, so

730

01:20:24.780 --> 01:20:29.659

Louis Stevenson: they're pretty picky about parking. So they and they make sure they'll know where we're going.

731

01:20:30.250 --> 01:20:30.950

Louis Stevenson: So.

732

01:20:31.750 --> 01:20:32.580

Kumpy's iPhone: Perfect.

733

01:20:33.210 --> 01:20:35.700

Damon Poor: What is the track in Spokane called.

734

01:20:36.230 --> 01:20:38.170

Tico Sandoval: Cliff.

735

01:20:38.920 --> 01:20:39.940

Damon Poor: List.

736

01:20:40.400 --> 01:20:41.090

Kumpy's iPhone: Kalista.

737

01:20:41.090 --> 01:20:43.169

EmDee35: Yeah, it's like, QLI.

738

01:20:43.170 --> 01:20:50.560

Damon Poor: Yeah, okay, yeah. I was looking at it. And it's like, Kalispell, Montana owned, okay, cool, perfect. Yeah. Chris, I'll send you something here shortly.

739

01:20:53.750 --> 01:21:02.719

Kumpy's iPhone: Okay. Well, our meeting is officially over, Dico. You can go ahead and stop the minutes and appreciate from everyone coming out. And we'll see. You guys, this.
